Re Boston teletypes to Bureau, 1/8/82, 3/9/82 and 4/9/82;
 Bureau airtel to Boston, 4/22/82.

In accordance with instructions in referenced Bureau airtel, the following points pertaining to the use of an electronic device are set forth:

1. The body recorder was of assistance in directing the course of the investigation inasmuch as many of the crimes about which the cooperating witness was furnishing information lacked the necessary supporting corroboration which was obtained through the monitoring and recording of conversations with the consent of a party by use of the electronic device.

2. The use of an electronic device in this case resulted in obtaining direct evidence against two of the perpetrators of a major jewel heist in Boston, which evidence is expected to be the basis for indictments against both individuals and which evidence could ultimately result in their cooperation against a third conspirator who in turn is a suspect in the captioned Wheeler investigation.

Further, use of an electronic device resulted in obtaining direct evidence of a drug (cocaine) conspiracy involving a ranking local Teamster's Union official, which matter will be pursued with the Strike Force, Boston.

3. Use of an electronic device afforded the maximum protection to the cooperating witness while he was wearing such device. It was particularly important that all conversations be closely monitored inasmuch as the cooperating witness had previously been the target of gangland slaying attempts and further because, in attempts to obtain corroborating evidence, he was visiting locations frequented by numerous criminals and their associates, thereby making him a ready target for a gangland slaying attempt.

For the information of the Bureau, all persons identified as having been monitored both on the body recorder and the telephone recording device have been included in the Field Office Elsur Indices and a separate communication has been submitted to the Bureau instructing that these individuals be included in FBIHQ Elsur Indices.

OF BOTH PREMISES WAS CONDUCTED BY THE METRO DADE OFFICERS
WITH THE ASSISTANCE OF BOSTON FBI AGENTS AND IN THE
PRESENCE OF ATTORNEY [REDACTED] SEEKING ANY CLUES THAT
WOULD HAVE A BEARING ON CALLAHAN'S BACKGROUND AND MURDER.
CERTAIN ITEMS INCLUDING TELEPHONE TOLL RECORDS, AIRLINE
TRAVEL INVOICES, AND OTHER PAPERS WERE TAKEN BY THE METRO
DADE OFFICERS WITH THE CONSENT OF ATTORNEY [REDACTED]
BUT NOTHING WAS NOTED WITH AN OBVIOUS BEARING ON THE
CALLAHAN HOMOCIDE OR CALLAHAN ORGANIZE CRIME CONNECTIONS.
BOSTON IS RETAINING COPIES OF THE TOLL RECORDS AND

CALLAHAN'S LEASED 1982 JAGUAR WAS RECOVERED AT
LOGAN AIRPORT, EAST BOSTON, AUGUST 5, 1982, BY FBI,
AND A SEARCH OF THAT VEHICLE WAS CONDUCTED BY THE FBI
AND METRO DADE OFFICERS WITH THE CONSENT OF THE VEHICLE'S
OWNER/LESSOR. A PARKING TICKET LOCATED IN THE VEHICLE
SHOWED THAT JAGUAR WAS CHECKED INTO THE LOGAN AIRPORT
PARKING LOT AT 1657 HOURS (4:57 P.M.), SATURDAY,
JULY 31, 1982. NO OTHER CLUES OR ITEMS OF EVIDENCE WERE
OBTAINED FROM THE JAGUAR.

INQUIRY AT DELTA AIRLINES, BOSTON, DETERMINED THAT
JOHN CALLAHAN MADE RESERVATION FOR A ROUND TRIP WITH
DELTA AIRLINES, DEPARTING BOSTON ON DELTA FLIGHT 541 AT
5:50 P.M., JULY 31, 1982, ARRIVING IN FORT LAUDERDALE AT
8:43 P.M. AND RETURNING TO BOSTON AUGUST 1, 1982

. BOSTON IS ATTEMPTING TO SECURE THAT PARTICULAR
FLIGHT MANIFEST.

FOR THE INFORMATION OF THE BUREAU AND RECEIVING
OFFICES, IT IS VERY SIGNIFICANT TO NOTE THAT THE FBI
BOSTON HAS BEEN ADVISED BY THE METRO DADE POLICE DEPARTMENT
OFFICERS WHO WERE IN BOSTON THAT CALLAHAN'S CORPSE WAS
LOCATED FACE UP IN THE TRUNK OF HIS CADILLAC WITH A DIME
FOUND ON HIS CHEST. "DROPPING A DIME" IS A COMMON
EXPRESSION AT LEAST IN THE BOSTON AREA OR THE NORTHEAST
AREA INDICATING THAT A PERSON USED THE TELEPHONE TO
"SET UP" A PERSON FOR A "HIT" AND WOULD ALSO BE USED IN
REFERRING TO SOMEONE WHO IS INFORMING ON HIS ASSOCIATES.
IT IS SIGNIFICANT THAT SUCH EXPRESSION WAS NOT FAMILIAR
TO EITHER OF THE METRO DADE OFFICERS WHO WERE IN BOSTON
AND IT MIGHT BE INDICATIVE OF A BOSTON "HIT MAN" UNLESS
IT WAS DELIBERATELY LEFT AS A FALSE LEAD TO INVESTIGATORS.
FURTHER, THE EXPRESSION "DROPPING A DIME" WOULD NOT BE AS
LIKELY TO BE USED BY SOMEONE IN THE MIAMI AREA WHERE
PAY TELEPHONES ARE 25 CENTS, AS IT IS IN BOSTON, WHERE SUCH

PAGE SIX BS 183B-817 UNCLAS

CALLS ARE STILL 10 CENTS.

INASMUCH AS CALLAHAN FLEW INTO FORT LAUDERDALE
ARRIVING AROUND 10:00 P.M., JULY 31, 1982, AND SINCE
HIS CAR WAS OBSERVED DURING ROUTINE CHECK OF PARKING LOT
AT MIAMI INTERNATIONAL AIRPORT AT 3:00 A.M. THE FOLLOWING
DAY, SUNDAY AUGUST 1, 1982, CALLAHAN'S MURDER OCCURRED
WITHIN A SHORT TIME AFTER HIS ARRIVAL IN THE FORT
LAUDERDALE AREA, AND WAS EITHER COMMITTED OR SET UP BY
SOMEONE WHO HE KNEW OR MIGHT HAVE MET AT THE AIRPORT
HAVING NOTICE OF HIS ARRIVAL. CALLAHAN USUALLY KEPT HIS
CAR PARKED AT FORT LAUDERDALE AIRPORT WHILE HE WAS OUT
OF TOWN, BUT HE MAY HAVE HAD A PAINT JOB DONE ON IT
RECENTLY, REQUIRING ITS DELIVERY EITHER BEFORE CALLAHAN'S
ARRIVAL OR WHEN HE ARRIVED.

MIAMI SHOULD BE AWARE THAT BOSTON HAS RECEIVED
UNCOORROBORATED INFORMATION FROM THE MASSACHUSETTS
STATE POLICE THAT CALLAHAN WAS GOING TO FLORIDA TO DELIVER
A SUBSTANTIAL AMOUNT OF CASH TO FEDERAL FUGITIVE. [REDACTED]

BOSTON IN RECEIPT OF INFORMATION FROM METRO DADE PD OFFICER

[REDACTED] THAT AN ATTEMPT WAS MADE AUGUST 10, 1982 TO
CONTACT [REDACTED] AT FT. LAUDERDALE, FLORIDA, BUT THAT IT WAS
DETERMINED FROM [REDACTED] HAS BEEN
MISSING SINCE AUGUST 6, 1982 AND HIS WHEREABOUTS ARE UNKNOWN.

[REDACTED] IT IS RECALLED, WAS [REDACTED] OF JOHN B.

CALLAHAN, BUT BOSTON POLICE SOURCES CLAIM THAT [REDACTED]

[REDACTED] FOR WINTER HILL ORGANIZATION LEADERS [REDACTED]

[REDACTED] WAS RECENTLY TOLD BY [REDACTED]

[REDACTED] WITH THE RESULT THAT

[REDACTED] HAD MOVED WITH [REDACTED] TO FT.

LAUDERDALE. THE REASON FOR [REDACTED]

IS NOT KNOWN. A CHECK OF [REDACTED] SOUTH BOSTON RESIDENCE

AUGUST 10, 1982, DETERMINED THAT NO ONE WAS APPARENTLY LIVING THERE,

AND THAT UTILITY BILLS ARE STILL APPEARING AND A NOTICE OF

TERMINATION OF WATER SERVICES HAS BEEN POSTED, EVEN THOUGH IT APPEARS

THAT MAIL IS LIKELY BEING PICKED UP FOR HIM PERIODICALLY.

ACCORDING TO OFFICER [REDACTED] OF THE METRO DADE PD, MIAMI,

FLORIDA, [REDACTED] CLAIMED THAT [REDACTED]

CALLAHAN'S DEATH AND SAID THAT HE WAS [REDACTED]

b6
b7c

HE DID NOT SAY WHERE HE WAS GOING AND HIS MODE OF TRAVEL IS UNKNOWN SINCE HE DID NOT TAKE A FAMILY CAR AND HE WAS CARRYING ONLY \$200.00 CASH. HE TOOK NO LUGGAGE, CHANGE OF CLOTHES OR TOILET/SHAVING ARTICLES. [REDACTED] DENIED THAT [REDACTED] LEFT

[REDACTED] BUT THE INVESTIGATORS OBSERVED NO FURNITURE AT [REDACTED] FORT LAUDERDALE RESIDENCE, AND [REDACTED] DID CLAIM HE WAS SEEKING FOREIGN EMPLOYMENT.

CONTACT WITH [REDACTED] OF JOHN B. CALLAHAN, AND [REDACTED] AUGUST 10, 1982, BY FBI, BOSTON, ASCERTAINED THE FOLLOWING ADDITIONAL INFORMATION:

CALLAHAN'S FORT LAUDERDALE CONDO HAD NOT BEEN USED BY ANY OF CALLAHAN'S ASSOCIATES OR BUSINESS ACQUAINTANCES SINCE LATE MAY OR EARLY JUNE 1982. IT WAS CALLAHAN'S CUSTOMARY PRACTICE WHENEVER HE ALLOWED SOMEONE TO USE HIS FORT LAUDERDALE CONDO TO CALL [REDACTED] EITHER DIRECTLY OR THROUGH [REDACTED] TO ALERT [REDACTED] TO THE CONDO. HE WOULD THEN LET [REDACTED] THE PARTY HAD GONE, AGAIN EITHER DIRECTLY OR THROUGH [REDACTED] CALLAHAN WOULD SOMEHOW GET THE KEYS FOR THE CONDO TO THE VISITING PARTY, AND RETRIEVE THEM WHEN THEY DEPARTED. THE KEYS TO CALLAHAN'S LEASED CADILLAC WERE

b6
b7c

KEPT AT THE CONDO IN THE DRAWER OF A CONSOLE TABLE NEXT TO THE LIVINGROOM SOFA, OR SOMETIMES IN THE CABINET ABOVE THE KITCHEN PHONE. HOWEVER, THE CAR WAS KEPT PARKED AT FT. LAUDERDALE AIRPORT WHEN CALLAHAN WAS OUT OF TOWN, AND IT WOULD BE THE RESPONSIBILITY OF WHOEVER HAD USE OF THE CONDO TO PICK UP THE CAR AT THE AIRPORT AND RETURN IT WHEN THEIR STAY WAS DONE. WHILE THEY USED THE CONDO, THEY HAD FREE USE OF THE CAR. ACCORDING TO [REDACTED] THE CALLAHAN CAR WAS NOT AT THE CONDO [REDACTED] JULY 29, 1982.

ACCORDING TO [REDACTED] TELEPHONED HER BETWEEN 9:30-10:00 PM, JULY 30, 1982, ASKING [REDACTED]

[REDACTED] THAT SOMEONE WOULD BE USING THE CONDO AND THAT "THEY" WOULD BE COMING IN LATE THAT SAME NIGHT. HE SAID THAT HE WOULD CALL WHEN THEY WERE GONE, AND ALTHOUGH HE DID NOT SAY SO, IT WAS HER IMPRESSION THEY WOULD BE STAYING ONLY FOR THE WEEKEND.

[REDACTED] SAID THAT [REDACTED] SEEMED UPSET WHEN HE [REDACTED] JULY 30, 1982, BUT HE DID NOT CLARIFY THE SOURCE OF HIS IRRITATION. HE SAID THAT HE HAD TO GO TO WASHINGTON, D.C., AND THEN TO FLORIDA, WHICH SHE THOUGHT UNUSUAL SINCE SHE KNEW OF

b6
b7c

PAGE EIGHT BS 133B7317 [REDACTED] LAS

NO BUSINESS DEALINGS HE HAD IN D.C. AND BECAUSE HE OBVIOUSLY WOULD HAVE TO FIND A MOTEL IN FLORIDA IF HE WAS LETTING SOMEONE USE HIS CONDO.

TWO ITEMS OF NOTE THAT MIAMI SHOULD ATTEMPT TO CONFIRM WERE MENTIONED. FIRST, THERE WAS A BURGLARY AT THE CONDO IN FEBRUARY, 1982, IN WHICH ENTRY WAS GAINED THROUGH A SLIDING GLASS DOOR, BUT VIRTUALLY NOTHING OF VALUE WAS TAKEN. THE LOCKS AT THE CONDO WERE CHANGED FOLLOWING THIS INCIDENT. SECOND, CALLAHAN WAS CONCERNED WITH DAMAGE CAUSED TO HIS CAR BY LEAVING IT PARKED IN THE LONG TERM PUBLIC PARKING AREA AT FORT LAUDERDALE AIRPORT AND, ACCORDING TO [REDACTED] HAD RECENTLY OBTAINED A MORE SECURE PRIVATE PARKING FACILITY OFF BUT NEAR THE AIRPORT.

b6
b7c

FINALLY, THE BUREAU, MIAMI AND OKLAHOMA CITY SHOULD BE AWARE OF A SITUATION OVER WHICH THE FBI HAD NO CONTROL WHICH MAY, AS EVENTS TURNED OUT, HAVE BEEN IN SOME WAY RESPONSIBLE FOR THE DECISION THAT CALLAHAN WAS "WEAK" AND SHOULD BE "HIT". SHORTLY AFTER THE GANGLAND STYLE MURDER OF EDWARD BRIAN HALLORAN IN BOSTON, MAY 11, 1982, BOSTON AREA NEWSPAPERS PUBLISHED ARTICLES IDENTIFYING HALLORAN AS BEING AN INFORMANT FOR THE POLICE GENERALLY AND POSSIBLY FOR THE FEDERAL GOVERNMENT OR FBI. THE

ARTICLES FURTHER SET FORTH A GENERALLY ACCURATE PORTRAYAL OF

[REDACTED] ON THE WHEELER MURDER,

b7D

[REDACTED] THE MURDER CONTRACT BY

A WELL KNOWN BOSTON BUSINESSMAN WHO THE ARTICLES DID NOT IDENTIFY.

IF [REDACTED] THE WHEELER MURDER WAS, IN FACT, ACCURATE,

THEN [REDACTED] WOULD HAVE

KNOWN FULL WELL THE IDENTITY OF CALLAHAN EVEN THOUGH THE MEDIA

ACCOUNTS DID NOT DIVULGE THIS NAME TO THE PUBLIC IN GENERAL.

THE SOURCE OF THESE MEDIA REVELATIONS IS NOT KNOWN, BUT SUFFICE

IT TO SAY THAT BY THEN, DUE IN PART TO SECURITY VIOLATIONS

COMMITTED BY HALLORAN HIMSELF IN TELLING FAMILY, FRIENDS AND THE

MASS. STATE POLICE (MSP) [REDACTED]

b7D

[REDACTED] AND IN PART TO A NECESSARY SHARING OF CERTAIN

INFORMATION WITH LOCAL PROSECUTORS DUE TO [REDACTED]

[REDACTED] IT WAS KNOWN BY PERSONS OUTSIDE THE FBI THAT

[REDACTED] CERTAINLY CERTAIN CO-CONSPIRATORS

IN THE WHEELER MURDER, IF THE SCENARIO PRESENTED [REDACTED] WAS

ACCURATE, COULD PERCEIVE CALLAHAN AS A THREAT.

AT THE TIME OF CALLAHAN'S MURDER, JULY 31-AUGUST 1, 1982,

7

BOSTON WAS IN THE PROCESS OF COMPLETING THE TRANSCRIPTION OF
BODY RECORDED TAPED CONVERSATIONS BETWEEN [REDACTED]

b7D

[REDACTED] AT BOSTON THAT IS BELIEVED WOULD
HAVE LED TO THE INDICTMENT OF CALLAHAN FOR [REDACTED]
AND POSSIBLY HAVE LED TO HIS COOPERATION IN THE WHEELER MATTER.
HOWEVER, AT THE TIME OF CALLAHAN'S MURDER, THIS HAD NOT BEEN
COMPLETED, AND CALLAHAN HAD NOT BEEN APPROACHED, WAS NOT
COOPERATING WITH THE FBI AND WAS NOT UNDER SUBPOENA, ALTHOUGH
THERE WERE RUMORS THAT HE WAS COOPERATING AND/OR UNDER
SUBPOENA.

BOSTON OFFERS THE FOLLOWING AS A POSSIBLE EXPLANATION
TO THE MURDER OF JOHN CALLAHAN:

b7D

[REDACTED]
[REDACTED]
ADVISED, AMONG OTHER THINGS, THAT CALLAHAN, [REDACTED]

[REDACTED] TO MURDER ROGER
WHEELER. [REDACTED] WHITEY BULGER AND STEVIE

FLEMMI WHO NOW HEAD UP THE WINTER HILL ORGANIZATION IN BOSTON.
(OFTEN REFERRED TO AS THE IRISH MOB). [REDACTED]

BULGER AND FLEMMI, DID NOT KNOW THEY WOULD BE AT [REDACTED] AND

VICE-VERSA. [REDACTED]

[REDACTED] ABOUT THE MEETING. ON

MAY 27, 1981, WHEELER WAS MURDERED GANGLAND STYLE AT TULSA,

OKLAHOMA. SHORTLY AFTER THIS, CALLAHAN, [REDACTED]

b7D

WITH [REDACTED] A THIRD PARTY, TOLD [REDACTED] THAT JOHNNY

MARTORANO (BUREAU FUGITIVE) ALONG WITH BULGER AND FLEMMI,

MURDERED WHEELER. MARTORANO WAS THE "TRIGGERMAN", FLEMMI

DROVE THE "GETAWAY CAR", AND BULGER DROVE THE "SWITCH CAR".

ON MAY 11, 1982, HALLORAN, ALONG WITH MICHAEL DONAHUE, WAS MURDERED GANGLAND STYLE AT BOSTON. AS SET FORTH, SUPRA, THE MEDIA IN BOSTON GAVE EXTENSIVE COVERAGE TO THE CLAIM HALLORAN WAS COOPERATING WITH THE "FEDS" AND HAD BEEN ASKED BY A "BOSTON BUSINESSMAN" TO MURDER ROGER WHEELER.

SUBSEQUENT TO THIS SLAYING OF HALLORAN, FGJ HEARINGS AT TULSA CONTINUED AND AMONG THOSE SUBPOENAED WAS [REDACTED]

b3

ON THE WEEKEND OF JULY 31-AUGUST 1, 1982, CALLAHAN WAS MURDERED GANGLAND STYLE IN FLORIDA. A DIME WAS FOUND ON HIS CHEST, INDICATIVE OF THE MOB'S SUSPICION HE WAS AN INFORMANT.

ASSUMING

THE WHEELER

b7D

MURDER, AND ASSUMING THE WHO SUSPECTED CALLAHAN AS BEING

"WEAK" OR COOPERATING, IT WOULD CERTAINLY BE IN THEIR BEST

INTEREST TO ELIMINATE HIM.

On 5-11-82, Halloran and another individual were murdered gangland style on the Boston waterfront. [redacted] was named in a dying declaration by Halloran as being the "trigger man."

b6

On the weekend of 7/31-8/1/82, John B. Callahan, supra, was murdered gangland style and his body was found in the trunk of his 1980 Cadillac at the Miami International Airport. Supposition and conjecture at this time by both Agents close to the investigation and individuals outside the Bureau is that there is a "connection" between the Wheeler-Halloran-Callahan slayings.

For the ~~more~~ specific information of Los Angeles, during the debriefing sessions Boston had with its [redacted] numerous criminal enterprises that [redacted] One of these enterprises involved a company in the Los Angeles area. b7D

Boston, at the time of the debriefing of the source, had no other pertinent information and no way of corroborating what this source had furnished to the debriefing Agents without jeopardizing his identity.

Subsequent to the slaying of Callahan, a "Consent Search" was made of Callahan's office and condominium in Boston by Agents of the Boston Division and representatives of the Metro Dade County PD out of Miami, Fla. On 8-4-82, numerous documents were taken from Callahan's office at 10 Commercial Wharf South, on the Boston waterfront. Numerous telephone directories and other items were reviewed and among the listings for telephone numbers found in Callahan's secretary's office were the following:

A business envelope from the First National Bank of Boston for account number 533-6630, for Sed Leasing, c/o John B. Callahan and Associates, Inc., 10 Commercial Wharf.

Written on the top of this envelope was the name, [redacted]

Underneath that name, [redacted] (Secretary)."
Underneath that name: [redacted]

Boston knows that Callahan was associated, for the most part, with legitimate companies, most of those in the computer trade, both software and hardware.

Boston has interviewed numerous individuals to determine if there is any connection between the three murders and to determine if there is any connection with the scamming-type operation going on within WJA or one that is taking place outside of WJA. In this regard, Boston requests Los Angeles to first search its indices and determine if any of the above names, company names, etc., have any bearing on a current investigation within that Division; and, if not, to contact [redacted] (PH) and determine his association with Callahan and, further, to determine if he can shed any light on why Callahan was murdered.

b6
b7C

For the information of Los Angeles, much of the information [redacted] in the initial stages, as bizarre as it may have sounded, has a ring of sincerity to it. In this regard, there is a possibility that Callahan [redacted] were involved in a criminal enterprise. Los Angeles should attempt to discretely determine the identity of [redacted] during the period of [redacted] and, once done, interview him under the guise of [redacted] and any information he may have as to why Callahan was murdered. Supposedly, and again according to [redacted] [redacted] the challenge that he in fact was [redacted] his company and [redacted]

b7D

Los Angeles should also attempt to locate and interview [redacted] and determine their relationship with Callahan and what informaton they can furnish regarding his murder.

Los Angeles should also attempt to determine if there is a hotel named [redacted] and, if so, attempt to determine through records if [redacted] stayed there during the period [redacted] advised he often used the pseudonym [redacted] He advised he initially started using the pseudonym as a joke; however, most people did not make the connection between this pseudonym and the name of a [redacted] and he continued to use it during his criminal career. For the sake of brevity and clarity, Boston is not setting forth all of the investigation that has been conducted as a result of the three separate "hits." However, Boston will gladly respond to any inquiries to Los Angeles regarding this matter and, in that regard, contact can be made telephonically with the case agents in this investigation at Boston, [redacted] or [redacted] of the C-2 Squad in Boston, or, in their absence, their Supervisor, [redacted]

[REDACTED] MURDER OF WHEELER, WAS THE

PAST PRESIDENT OF WJA, JOHN B. CALLAHAN, A WELL KNOWN BOSTON
BUSINESSMAN WHO HEADED UP JOHN B. CALLAHAN AND ASSOCIATES, INC.,
A FINANCIAL CONSULTING FIRM. CALLAHAN ALSO WAS MURDERED GANGLAND
STYLE AND FOUND STUFFED IN THE TRUNK OF HIS 1980 FLEETWOOD
CADILLAC, OVER THE WEEKEND OF JULY 31-AUGUST 1, 1982. THIS
CAR WAS FOUND IN THE PARKING LOT OF THE MIAMI, FLORIDA AIRPORT.
INVESTIGATION HAS DETERMINED THAT CALLAHAN FLEW TO FORT
LAUDERDALE, FLORIDA ON SATURDAY EVENING, JULY 31, 1982, ARRIVING
THERE AT APPROXIMATELY 10:00 P.M. HE HAD HIS POA PARKED AT FT.
LAUDERDALE. SOMETIME BETWEEN 10:00 P.M., JULY 31, 1982 AND
3:00 AM, AUGUST 1, 1982, CALLAHAN WAS MURDERED. EXTENSIVE
INVESTIGATION HAS BEEN CONDUCTED AND FOR THE SAKE OF BREVITY,
BOSTON IS NOT SETTING FORTH MANY OF THE RAMIFICATIONS AND
POSSIBLE THEORIES THAT HAVE EVOLVED.

ON AUGUST 11, 1982, [REDACTED] HOME ADDRESS:

[REDACTED] MASS., VOLUNTARILY APPEARED AT THE
BOSTON OFFICE OF THE FBI AND FURNISHED THE FOLLOWING INFORMATION:

b7D

b6
b7C

[REDACTED] A WHITE MALE HAVING DOB: [REDACTED] AT
[REDACTED] IS [REDACTED] AGE
[REDACTED] RESIDE AT [REDACTED] MASS. [REDACTED]
RELATED A SERIES OF STRANGE CONVERSATIONS TO [REDACTED]
HOME ADDRESS: [REDACTED] MASS. [REDACTED] OVERHEARD
[REDACTED] TALKING TO [REDACTED]
[REDACTED] WHO [REDACTED]
[REDACTED] SAME ADDRESS. THIS CONVERSATION TOOK PLACE ON OR ABOUT
[REDACTED] WAS OVERHEARD TELLING [REDACTED] ON THE
TELEPHONE THAT HE WAS RESPONSIBLE FOR [REDACTED]
[REDACTED] HE THEN FURTHER EXPLAINED THAT
HE [REDACTED] HE FURTHER ADVISED THAT HE [REDACTED]

b6
b7c

SUBSEQUENT INVESTIGATION AND INTERVIEWS DETERMINED THAT
[REDACTED] RELATED TO [REDACTED] AS WELL AS
[REDACTED] THAT HE HAS BEEN INVOLVED IN A NUMBER
OF GANGLAND TYPE MURDERS OVER A PERIOD OF YEARS AND, IN FACT,
WAS RESPONSIBLE FOR THE MURDER OF CALLAHAN AT MIAMI, FLORIDA.
FURTHER INVESTIGATION HAS DETERMINED THAT [REDACTED] AN ALCOHOLIC,
A PATHOLOGICAL LIAR, AND HAS HAD DIFFICULTY HOLDING DOWN A JOB

AS A [REDACTED] IS DEEPLY INDEBT, AND HAS HAD [REDACTED] UNSUCCESSFUL MARRIAGES. MUCH OF WHAT HE RELATED TO THE ABOVE NAMED INDIVIDUALS COULD HAVE BEEN OBTAINED FROM NEWSPAPER ARTICLES AND/OR SPECULATION FOR ANYONE READING, WITH INTEREST, ANY ARTICLES THAT HAVE APPEARED IN NEWSPAPERS IN THE GREATER BOSTON AREA. THE MURDERS OF ALL THREE INDIVIDUALS MENTIONED ABOVE HAVE BEEN GIVEN WIDE SPREAD PUBLICITY AND THE MEDIA IS ATTEMPTING TO MAKE A CONNECTION FROM WHEELER TO HALLORAN TO CALLAHAN. NEVERTHELESS, SINCE THERE ARE RESPONSIBLE INDIVIDUALS HERE IN THE BOSTON AREA WHO ARE REPORTING THIS TO THE FBI, HOWEVER UNCERTAIN [REDACTED] VERACITY, IT IS FELT THAT [REDACTED] SHOULD BE APPROACHED AND INTERVIEWED REGARDING HIS KNOWLEDGE OF THE CALLAHAN MURDER IN MIAMI, FLORIDA.

b6
b7c

[REDACTED] ALSO CLAIMS [REDACTED] IN HARTFORD, CONNECTICUT AROUND THE SAME PERIOD, HOWEVER, COMMENTED THAT THIS INDIVIDUAL WAS NOT A WELL KNOWN PERSON AND THEREFORE HIS MURDER WAS NOT GIVEN MUCH PUBLICITY.

ON FRIDAY, AUGUST 13, 1982, [REDACTED] DEPARTED THE BOSTON AREA AT THE ROUTE 128 RAILROAD STATION VIA AMTRAK AT 10:48 PM WITH AN ULTIMATE DESTINATION OF [REDACTED] HE

IS TRAVELING WITH [REDACTED]

[REDACTED] SUPPOSEDLY WIRED THE MONEY FOR THEM TO TRAVEL VIA TRAIN.

FROM EVERYTHING THAT HAS BEEN SAID ABOUT THIS INDIVIDUAL, AND FROM HIS PATTERN OF ACTIVITY, BOSTON DOES NOT GIVE MUCH CREDABILITY TO HIS POSSIBLE INVOLVEMENT IN THE CALLAHAN SLAYING. NEVERTHELESS, SINCE THIS ALLEGATION HAS BEEN MADE AND SINCE [REDACTED] ALLEGEDLY ADMITS TO HIS INVOLVEMENT IN IT, HE SHOULD BE INTERVIEWED TO DETERMINE JUST WHAT HE DOES KNOW OF THIS SLAYING.

THE WEAPON USED IN THE SLAYING WAS A .22 CALIBER, PROBABLY AUTOMATIC, AND LONG AMMUNITION WAS THE TYPE OF ROUND USED. WHEN CALLAHAN'S BODY WAS FOUND, NO PERSONAL BELONGINGS SUCH AS JEWELRY, WATCH, WALLET, OR ANY OTHER IDENTIFYING DATA, WERE FOUND WITH THE BODY. HIS POCKETS HAD BEEN TURNED INSIDE OUT. HE WAS DRESSED CASUALLY. A DIME WAS PLACED ON HIS CHEST WHICH HAS NOT BEEN GIVEN ANY PUBLICITY, INDICATING HE MAY HAVE BEEN AN INFORMANT. HE WAS SHOT SIX TIMES IN THE HEAD.

FOR THE FURTHER INFORMATION OF COLUMBIA, [REDACTED] NAME HAS NOT TURNED UP IN ANY DOCUMENTS OR FROM INTERVIEWS WITH INDIVIDUALS HAS TURNED UP IN ANY DOCUMENTS OR FROM INTERVIEWS WITH INDIVIDUAL

 RICO-MURDER
 (OO: OKLAHOMA CITY)

Enclosed for Miami, Oklahoma City, and New York is one copy each of a memorandum dated August 16, 1976 by [redacted] captioned "World Jai-Alai".

For the information of Oklahoma City, Miami, and New York, during a consent search of the records of John B. Callahan (deceased) which was authorized by his attorney and conducted at the attorney's Boston office, a copy of a memorandum dated August 16, 1976 was obtained. The memorandum is directed to R A Wheeler, [redacted] and [redacted] from [redacted] which individuals apparently represent some type of London Bank or other financial lending or investment institution or group.

The memorandum deals with a proposal to help John B. Callahan acquire World Jai-Alai (WJA), and it identifies Callahan as a former World Jai-Alai president and chief executive

officer who resigned from WJA in order to formulate a way to acquire WJA. The proposal made by Callahan to [] (or his bank or group) calls for them to lend Callahan \$5 million to \$6 million for five years as part of a \$10 million to \$12 million purchase figure, or to invest \$2 million to \$3 million in subordinated loan on top of which the First National Bank of Boston (FNBB) would lend \$9 to \$10 million. In either case, Callahan offered [] institution 25 percent of the equity in the new company to be formed to purchase the business and lease WJA's assets.

b6
b7C

The memo continues by tracing WJA's history and summarizing some of the financial considerations of the proposed deal.

For the information of New York, the instant RICO case initially involved investigation by the Oklahoma City Division into the May 1981 gang land style slaying of entrepreneur Roger M. Wheeler in Tulsa Oklahoma in order to determine if the murder in fact involved violations of the RICO statute. Wheeler, among his several business investments, was the principal owner of World Jai-Alai of Miami Florida, which operation had frontons in several Florida cities and in Hartford, Connecticut. In January 1982, Boston developed information through [] that John B. Callahan, a well known Boston financial consultant and former president of World Jai-Alai prior to Wheeler's involvement, along with two powerful Boston area organized crime figures, were behind the Wheeler murder. The reason for the murder was supposedly related to Wheeler having uncovered some illegal activity []

b7D

[] and that it would have resulted in both the loss of a substantial amount of money and in the criminal prosecution of the perpetrators. []

Callahan was found in the trunk of his car at the Maimi International Airport with several bullets in his head in early August 1982.

Numerous offices, particularly Oklahoma City, Miami, Detroit, and Boston have been conducting intensive investigation into the possibility that the murders were all related. One of key areas of investigation, presuming that [] was credible, is to identify the scheme by which Callahan and his organized crime associates would have been able to siphon money from the WJA operation.

b7D

The enclosed memorandum is significant in several ways:

First, [REDACTED]

[REDACTED] has testified before the Federal Grand Jury in Tulsa, Oklahoma that [REDACTED]

b3
b6
b7C

Secondly, page four of the enclosed memo indicates [REDACTED] understanding that Paul Rico was a partner of Callahan in the proposed deal.

Thirdly, Callahan indicated to [REDACTED] that he had obtained a financing commitment from the Central State Pension Fund of the International Brotherhood of Teamsters (teamsters) for an outright \$35 million purchase of World Jai-Alai.

b7C

LEADS

NEW YORK

AT NEW YORK CITY. NEW YORK. Contact [REDACTED] through telephone number [REDACTED] (or possibly through [REDACTED] and arrange for interview. Interview [REDACTED] in detail regarding the deal outlined in the enclosed memorandum, including the background leading up to the proposal and the circumstances surrounding it.

b6
b7C

Specifically, determine whether the proposal, in [REDACTED] opinion, was a serious one on the part of Callahan, or whether in [REDACTED] opinion the proposal was merely a sham on the part of Callahan to provide a plausible excuse for his departure from WJA. It could be that [REDACTED] had factual knowledge that the proposal was not serious. Regardless, determine whatever became of the proposal.

Further, determine the role of Paul Rico, whether [REDACTED] had any conversation with Rico or how [REDACTED] came to understand Rico's involvement or the nature of that involvement.

Finally, determine from [REDACTED] the details of the so called financing commitment that Callahan had from the Central State Pension Fund of the Teamsters, and just how or through whom Callahan obtained such a commitment.

16 AUG 30 1982

RE DETROIT AND OKLAHOMA CITY TELS TO DIRECTOR, BOTH
DATED AUGUST 13, 1982.

ON AUGUST 11 AND 17, 1982, [] WAS CONTACTED
IN JACKSONVILLE CONCERNING THE CANCELLATION OF HIS PREVIOUSLY
ARRANGED MEETING WITH RUSSELL SWARTHOUT IN MIAMI ON []
1982, AND HIS KNOWLEDGE OF THE JOHN B. CALLAHAN SLAYING.

[] ADVISED THAT ON [] HE PLACED A
TELEPHONE CALL TO SWARTHOUT IN DETROIT AT TEL. NO. 313-
823-3420. THE PURPOSE OF THIS TELEPHONE CALL WAS TO
DETERMINE WHETHER OR NOT SWARTHOUT WOULD, IN FACT, BE ABLE
TO MAKE THE PREARRANGED MEETING. [] WAS TOLD THAT SWARTHOUT
WAS AT THE DENTIST AND WOULD RETURN HIS CALL. SWARTHOUT
CALLED [] BACK LATER THAT SAME DAY. SWARTHOUT WAS CALLING
TO THE BEST OF [] KNOWLEDGE FROM DETROIT. DURING THIS
CONVERSATION SWARTHOUT ADVISED [] THAT HE WOULD NOT BE
ABLE TO MAKE THE MEETING BECAUSE OF SCHEDULED DENTAL WORK
ON [] 1982. SWARTHOUT ADVISED [] THAT ONCE THIS
DENTAL WORK WAS COMPLETED, HE WOULD CONTACT [] AND ATTEMPT
TO SET THE MEETING FOR LATER IN THE MONTH OF AUGUST.

b6
b7c

[] THEN PROCEEDED TO MIAMI ON [] 1982,
 TO TRANSACT OTHER BUSINESS HE HAD ARRANGED. WHILE IN MIAMI
 [] HEARD OF THE MURDER OF JOHN CALLAHAN, AN INDIVIDUAL HE
 KNEW TO BE ASSOCIATED WITH WORLD JAI ALAI. [] IMMEDIATELY
 CONTACTED SWARTHOUT IN DETROIT (313-823-3420) FOR HIS RE-
 ACTION. SWARTHOUT ADVISED [] THAT IN HIS OPINION THE
 KILLING OF CALLAHAN WAS NOTHING MORE THAN A ROBBERY.
 SWARTHOUT TOLD [] THAT HE INTENDED TO CONTACT []
 [] ^{PAUL} ^{A WORLD} RICO OFFICER JAI ALAI IN MIAMI, FLORIDA,
 TO LEARN FROM THEM ANY FURTHER DETAILS THEY MIGHT BE PRIVY
 TO CONCERNING CALLAHAN'S DEATH.

UPON HIS RETURN TO THE JACKSONVILLE AREA, []
 [] PLACED A SECOND TELEPHONE CALL TO SWARTHOUT IN
 DETROIT ON [] 1982, AGAIN TO QUERY SWARTHOUT CONCERN-
 ING HIS REACTION TO THE CALLAHAN MURDER. DURING THIS
 CONVERSATION, SWARTHOUT ONCE AGAIN STATED THAT IT WAS HIS
 UNDERSTANDING THAT IT WAS A ROBBERY, AS OPPOSED TO AN
 EXECUTION STYLE MURDER. SWARTHOUT SEEMED TO [] TO BE
 RELATIVELY UNCONCERNED ABOUT THE MURDER OF CALLAHAN AND
 HOW IT RELATED TO HIS (SWARTHOUT'S) ALLEGED NEGOTIATIONS
 CONCERNING THE FINANCING OF WORLD JAI ALAI. [] WAS

b6
 b7C

UNABLE TO BE ANY MORE SPECIFIC CONCERNING THESE PERSONS -
TIONS WITH SWARTHOUT.

CONCERNING HIS KNOWLEDGE OF [REDACTED] PAUL
PICO, JOHN CALLAHAN AND RUSSELL SWARTHOUT, [REDACTED] ADVISED
THE FOLLOWING:

HE MET RICO [REDACTED] THROUGH SWARTHOUT WHILE IN THE
MIAMI AREA AND HAS OVER THE PAST THREE OR FOUR YEARS MET WITH
[REDACTED] ON NUMEROUS OCCASIONS. THE
MEETINGS USUALLY TOOK PLACE AT JAI ALAI IN MIAMI OR AT A
RESTAURANT IN THE MIAMI AREA. THESE MEETINGS WERE SOCIAL
IN NATURE AND USUALLY HELD OVER DINNER. ON VERY FEW
OCCASIONS SWARTHOUT, [REDACTED] AND RICO DISCUSSED THE FINANCING
OF WORLD JAI ALAI BUT [REDACTED] COULD NOT RECALL THE SPECIFICS
OF ANY OF THESE CONVERSATIONS. [REDACTED] STATED THAT ON A FEW
OCCASIONS WHILE HE WAS ATTENDING JAI ALAI IN MIAMI WITH
SWARTHOUT, THEY CHANCED UPON [REDACTED] AND RICO. ON THESE
OCCASIONS, IT WAS NOT UNLIKE SWARTHOUT TO DEPART [REDACTED]
COMPANY BRIEFLY TO TALK PRIVATELY WITH [REDACTED] AND RICO.

[REDACTED] STATED THAT HE HAD NEVER MET JOHN CALLAHAN BUT
KNEW HIM TO BE ASSOCIATED WITH WORLD JAI ALAI THROUGH
CONVERSATIONS HE [REDACTED] HAD HAD WITH SWARTHOUT.

b6
b7c

[] ADVISED THAT HE WAS UNABLE TO BE ANY MORE SPECIFIC CONCERNING THE DATES OF HIS MEETINGS WITH SWARTHOUT, [] AND RICO OR CONCERNING WHAT THEY DISCUSSED .

FOR INFORMATION OF THE DETROIT DIVISION, SWARTHOUT CONTACTS [] PERIODICALLY CONCERNING THE []

b6
b7c

[] SWARTHOUT HAS IN RECENT CONTACTS BEEN LESS AGGRESSIVE CONCERNING ADDITIONAL PAYMENTS OF EXPENSE MONEY [] AND IN HIS MOST RECENT CONTACT, TOLD [] THAT [] SITUATION WAS IN "LIMBO".

LEADS, JACKSONVILLE, AT JACKSONVILLE, WILL MAINTAIN CONTACT WITH [] AND FURNISH INTERESTED OFFICES ALL PERTINENT INFORMATION.

STATE AGENCIES INVOLVED IN INSTANT INVESTIGATION. THESE PROBLEMS RELATE TO COORDINATION PROBLEMS WHICH APPARENTLY ALSO EXIST BETWEEN BOSTON AND OKLAHOMA CITY DIVISIONS AND LOCAL AND STATE INVESTIGATIVE AGENCIES. MIAMI, IN WORKING WITH HIGHEST LEVEL OF MANAGEMENT OF METRO-DADE PUBLIC SAFETY DEPARTMENT, WAS UNDER THE IMPRESSION THAT THESE PROBLEMS HAD BEEN WORKED OUT. HOWEVER, ON OCTOBER 5, 1982, LOCAL MIAMI NEWSPAPER CARRIED AN ARTICLE WHICH STATED THAT DADE COUNTY PSD AND FLORIDA DEPARTMENT OF LAW ENFORCEMENT HAD EXECUTED A SEARCH WARRANT AT THE MIAMI JAI ALAI FRONTON IN RELATION TO THIS INVESTIGATION. MIAMI DIVISION HAD NOT BEEN ADVISED OF THIS ANTICIPATED MOVE. THIS PROBLEM IS IN THE PROCESS OF BEING RESOLVED AT THE LOCAL LEVEL AS IT RELATES TO LOCAL AND STATE AGENCIES.

IT IS APPARENT THAT A MEETING BETWEEN CONCERNED DIVISIONS AND FBIHQ IS WARRANTED AT THIS TIME TO RESOLVE INTERNAL PROBLEMS AND ESTABLISH INVESTIGATIVE THRUST.

ADDITIONALLY, CONCERNS HAVE BEEN VERBALIZED BY SOME INVOLVED LOCAL AND STATE AGENCIES THAT FORMER AGENT, PAUL RICO, WHO IS NOW DIRECTOR OF OPERATIONS FOR WORLD JAI ALAI IN MIAMI, MIGHT HAVE SOME

DETAILS: For background information, this investigation centers around three gangland murders which occurred in Tulsa, Oklahoma, Boston, Massachusetts, and Miami, Florida. These murders are believed to be related and there is evidence that they were committed by an organized crime group in Boston, Massachusetts, the Winter Hill gang. The Winter Hill gang is recognized as being closely allied with the LCN in Boston. These three murders occurred between May, 1981, and August, 1982.

Memo to Mr. Revell from [redacted]
Re: UNSUBS;
ROGER M. WHEELER - VICTIM;

b6
b7C

On 5/27/81, Roger M. Wheeler, who was Chairman of the Board of Telex Corporation and the owner of World Jai Alai (WJA), a Miami based operation with four Jai Alai Frontons in Florida, was gunned down in the parking lot of the Southern Hills Country Club, Tulsa, Oklahoma, after finishing a round of golf. In January, 1982, information was developed by Boston Division from [redacted]

[redacted] the Winter Hill Organization (WHO) that WHO leaders Stevie Flemmi and Whitey Bulger together with Boston financial consultant John B. Callahan, were responsible for the Wheeler murder. Callahan was the President of WJA in Miami, Florida, prior to the purchase of WJA by Wheeler. The reason for the murder of Wheeler was not made clear [redacted] had something to do with Wheeler discovering a scheme by which Callahan and his Boston criminal associates were illegally obtaining large amounts of money from WJA. [redacted]

b6
b7C
b7D

[redacted] advised he had been told by [redacted] that [redacted] would contact Paul Rico to assist in setting up Wheeler to be hit.

Paul Rico is a former FBI Agent who served in the Boston and Miami Divisions and is known to have been familiar with several members of the Winter Hill gang. After Rico's retirement from the FBI in 1976, he was employed by WJA and has been employed by them since that time. [redacted]

b6
b7C
b7E

On 5/11/82, Brian Halloran and an associate were slain gangland style in a hail of bullets on the Boston Waterfront. There were at least two gunmen in that murder and the Boston Police Department has issued a murder warrant for [redacted] is currently a UFAP fugitive. There is some indication that the double murder was engineered by the WHO.

b6
b7C

On 7/31-8/1/82, John B. Callahan was slain with several bullets in the head and his body stuffed into his leased Cadillac at the Miami International Airport. It is believed that Callahan had been in the Miami-Ft. Lauderdale, Florida, area to meet Federal fugitive Johnny Martorano, a high ranking WHO leader, Callahan may have harbored in the past.

Memo to Mr. Revell from [redacted]
Re: UNSUBS;
ROGER M. WHEELER - VICTIM;

b6
b7C

Callahan's exact connection with the WHO is unclear, but investigation has begun to develop some information that Callahan was in fact involved in the past with the WHO as the financial brains of the group, as possibly a money-cleaner, and as possibly a source for loan shark money used by that group. More recently, he is believed to have been involved in drug smuggling, probably as a money courier or the bankroll behind the operation.

The FBI has been working with state and local authorities in Tulsa, Oklahoma, Boston Massachusetts, and Miami, Florida, regarding these three murder investigations. Information which has been developed by the FBI regarding these murders has been provided to the various state and local officials and the FBI has expended considerable manpower in efforts to solve these three murders. Allegations have arisen during this investigation indicating WJA was involved in a large scale skimming operation, however, no specific information regarding how this was being accomplished has been developed.

On 10/15/82, ASAC Bill Nettles, Miami Division, telephonically contacted the Organized Crime Section and advised that a Task Force made up of various law enforcement agencies in the State of Florida had conducted a search of WJA in Miami, Florida, approximately two weeks prior to this date. Nettles stated that this search was conducted without the FBI's knowledge and that voluminous amounts of records have been seized from WJA as a result of a skimming investigation being conducted by these various law enforcement agencies. Nettles further advised that the Miami Division has been working closely with the state and local agencies in connection with the murder investigations of Wheeler and Callahan, however, the Miami FBI was purposely excluded from this aspect of investigation by state and local law enforcement agencies. Nettles advised that he had been told this by representatives from these police agencies and the head of the Federal Strike Force in Miami. The purpose for this exclusion was the concern of the state and local agencies that the Miami Office of the FBI was extremely close to employees at WJA which included Paul Rico and three other retired FBI Agents as well as [redacted] [redacted] in the Miami Division. Nettles further stated that he had learned from conversations with the Strike Force and other representatives from law enforcement agencies in Miami that it was their belief that some Agents in the Boston FBI would not pursue allegations against the Winter Hill gang vigorously.

b6
b7C

Memo to Mr. Revell from [redacted]
Re: UNSUBS;
ROGER M. WHEELER - VICTIM;

Nettles requested a meeting at Bureau headquarters on 10/25/82, with representatives from Boston, Oklahoma City, and Miami Field Divisions to discuss this matter.

On 10/25/82, the meeting was held at FBIHQ with the following individuals present: FBIHQ [redacted] b6
[redacted] Boston Division SAC Greenleaf, ASAC Bob Fitzpatrick, b7C
[redacted] Miami Division, ASAC Bill Nettles, [redacted]
Oklahoma Division SAC Ed Enright, SSRA [redacted] Tulsa
Oklahoma, and SA [redacted] The above issues were discussed during this conference and Section Chief [redacted] recommended that a conference be held with representatives from various state and local agencies and FBI Field Divisions who were involved in this investigation to resolve these issues.

On 11/3 and 4/82, the meeting was held in Tulsa, Oklahoma, with representatives from the various state and local and FBI Field Divisions which were involved in this investigation. During this meeting the status of investigation in each of the three murders as well as the skimming investigation was discussed. Discussion concerning the skimming investigation was very limited due to the fact that the Florida state and local agencies who have been involved in this investigation stated that all records, affidavits, and other information concerning this investigation were sealed by a Florida Supreme Court Judge who had issued the search warrant on WJA.

During the discussion of the various aspects of this investigation, several comments were made by state and local law enforcement agency representatives which indicated their concerns about the Miami and Boston FBI Division involvement in this investigation. These representatives were asked to explain what problems did they perceive with these two divisions in regards to this investigation.

Representatives from state and local law enforcement agencies from Florida stated that it was their perception that personnel of the FBI Miami Division were extremely close to the personnel of WJA, especially Paul Rico. They further stated they were of the belief that information concerning this investigation had been discussed with personnel at WJA and that this had hindered the investigation. They further stated that it was for this reason the FBI was not made aware of the execution of search warrants at WJA. This matter was discussed thoroughly, and specifics were requested concerning these allegations. No specific information was provided by the state and local agencies. They relied solely on the close associations between current FBI personnel of the Miami Division and personnel at WJA. This matter was of great concern to

Memo to Mr. Revell from [redacted]
Re: UNSUBS;
ROGER M. WHEELER - VICTIM;

b6
b7C

the representatives of the state and local agencies stating that it was their firm belief that WJA personnel were involved in large scale skimming and it would be virtually impossible for Paul Rico not to be aware of this skimming activity. They further stated that they were aware that [redacted]

b7E

[redacted] and that this could possibly hinder the FBI's effort in this investigation. These representatives from law enforcement agencies in Florida were asked by FBI personnel for any specific information or allegations against Paul Rico involved in the skimming activity in WJA. They stated that specific allegations were contained in the search warrant affidavits for WJA, however, they were prohibited from disclosing this information.

It should be noted that all of the law enforcement representatives acknowledged that they were convinced that the current Agents of the Miami Division assigned to this investigation were very trustworthy and conscientious. They also appeared relieved to find out that this investigation was being closely scrutinized by FBIHQ. However, it should also be noted that it is a very real perception on the part of these law enforcement agencies in Florida that certain personnel of the FBI in Miami are very close to personnel at WJA.

The Organized Crime Section has been unable to assess any allegations concerning skimming at WJA due to the fact that this information was not made available. ASAC Bill Nettles, Miami Division, has advised that he will attempt to obtain this information.

During the discussion of these three murders, the Winter Hill gang was discussed in detail. During informal discussions between state and local law enforcement agencies and FBIHQ personnel it was pointed out that it was the perception that certain personnel of the Boston FBI Division were closely associated with members of the Winter Hill gang. It was also their perception that this could have possibly hindered the investigation since the Winter Hill gang is primarily suspects in all three murders. Again specific information was requested regarding these allegations as none was provided. It was simply pointed out that they were aware of certain Agents in Boston who are closely associated with members of the Winter Hill gang and that because of this they had some concerns about providing information to the Boston FBI Office. Again, It should be noted that these individuals did state that they have complete confidence in the current Boston personnel who are involved in this investigation and

Memo to Mr. Revell from [redacted]
Re: UNSUBS;
ROGER M. WHEELER - VICTIM;

b6
b7C

would provide any and all information that they had. Inferences could be drawn from conversations indicating that these state and local officials were of the opinion that the FBI had confidential informants within the Winter Hill organization and because of this their efforts against this group were curtailed. In fact, FBI Boston has previously [redacted]

b7E

[redacted] in the Boston Division.

Considerable effort was made by FBIHQ personnel and Agents from various Field Divisions that the FBI was completely dedicated to this investigation and that sufficient safe guards had been set up to ensure the integrity of the investigation. All members of the various law enforcement agencies agreed that critical investigative or prosecutive decisions will not be made without consulting the other agencies and discussion with Miami Strike Force. It was also agreed upon that a monthly summary of the various aspects of this investigation would be provided to all pertinent law enforcement agencies involved in this investigation. The investigation concerning allegation of skimming from WJA would be handled by the Miami Strike Force with IRS conducting the audit. Miami FBI would be kept apprised of the progress of this investigation. The coordination and reporting of this investigation will be handled by the Tulsa RA, Oklahoma City Division.

From conversations with the various law enforcement representatives at this conference, the perceptions which have been articulated in the memorandum are very real and of great concern to these law enforcement agencies. It appears that they are now confident that the FBI is dedicated to this investigation and are confident in the personnel which are currently assigned to this matter. However, it is the opinion of the Organized Crime Section that considerable efforts should be made to ensure that this confidence is maintained. The Miami Division is attempting to determine if in fact there are substantiated allegations concerning skimming at WJA.

On 11/8/82, ASAC Nettles, Miami Division, advised that his office had been telephonically contacted by ABC News and advised that their network would be running a story on the WJA investigation on the evening news this date.

Boston has not copied instant records, but has reviewed same and noted [redacted] that might be useful in contacts with certain of [redacted]

[redacted] It is noted that there were numerous [redacted] in the voluminous records, but Boston sees no point in pursuing the broad range of [redacted] at this time without a more specific sense of direction that would relate [redacted] to the murder investigations. At such time when facts are revealed involving a specific area in [redacted] that has a bearing on the investigation of the murders, then it would certainly be useful to take a more detailed look at those records for whatever they might reveal.

Oklahoma City should note that package forwarded to Oklahoma City contains [redacted] to U.S. Attorney, Tulsa.

THROUGH WORLD JAI ALAI. ESSENTIAL TO TESTING THIS THEORY IS A COMPARISON OF THE RESPECTIVE CRIME SCENES AND NEIGHBORHOOD INVESTIGATIONS. WHEELER AND HOLLORAN WERE MURDERED BEFORE NUMEROUS WITNESSES. THESE WITNESSES CURRENTLY OFFER THE BEST HOPE OF SOLVING THESE MURDERS. TO PROPERLY EVALUATE THE POTENTIAL OF THESE WITNESSES, ESPECIALLY IN THE WHEELER MURDER, GOOD ELIMINATION PHOTOGRAPHS ARE NEEDED - PREFERABLY FULL LENGTH COLOR SURVEILLANCE PHOTOGRAPHS.

Enclosed for Chicago and Dallas is one copy each of a LHM dated 11/19/82.

Enclosed for Phoenix is one copy of New York teletype to Oklahoma City, 8/10/81, one 8"X 10" photograph and one copy of a 8"X10" of [redacted]

b6

For information of Phoenix and receiving offices, the only fingerprints available from the murder scene from Roger M. Wheeler are partial palm prints from the top and left rear window of Wheeler's vehicle. Their origin is unknown. The photograph of [redacted] does resemble a composite drawing of one of the Unsubs in this case. However, it is to be noted that in the photograph of [redacted] he does not have a beard.

For information of Phoenix, the Unsub referred to in the enclosed New York teletype was later determined to be using the name [redacted] who claimed to have recently come to New York from New Orleans, Louisiana, and the enclosed surveillance photographs were obtained.

For information of all receiving offices, a prime suspect in the murder of Roger M. Wheeler of the Tulsa, Oklahoma, Police Department has long been Dennis Bates Fletcher, aka Chief, white male, DOB 2/20/37, 6'0", 176 pounds, brown and greyish hair, blue eyes, muscular build, FBI #929 8510 who had a neatly trimmed beard with grey interspersed at the time of the murder of Wheeler. Shortly after the murder of Wheeler Fletcher shaved off this beard. Fletcher at the time of the murder of Wheeler was operating as a bail bondsman out of Oklahoma City, Oklahoma, with the bonding company being in the name of [redacted] [redacted] National Bonding Company, Oklahoma City, Oklahoma.

b6
b7C

Shortly after the murder of Wheeler in Tulsa, Oklahoma, on 5/27/81, a confidential informant of the Oklahoma State Bureau of Narcotics advised that a subject by the name of [redacted] [redacted] or [redacted] had told the informant that he had taken a man by the name of [redacted] [redacted] to Tulsa where they had stolen a vehicle and subsequently committed the murder of Roger M. Wheeler. [redacted] allegedly had an apartment in [redacted] [redacted] allegedly told the informant that a person by the name of [redacted] or possibly [redacted] got a contract for the victim for [redacted] and that [redacted] had flown in and picked up the money from [redacted] [redacted] The informant had stated that [redacted] fit the description of the composite of Unsub #2. The informant further advised that [redacted] last name, was a white, male, in his 40's approximately 5'10" with a dark beard with white in it and that [redacted] The Oklahoma State Bureau of Narcotics advised that they were not in a position to judge the credibility of the informant in this matter. There was some mention that [redacted] was an alleged member of the Denver Mafia Family.

b6
b7C
b7D

Previous attempts to identify [redacted] and any definite connection to the murder of Roger M. Wheeler was negative. Also, all previous investigation to associate Roger M. Wheeler with any Chop-shop or any vehicle operation of any kind, anywhere has been negative.

b6
b7C

On 11/9/82 an anonymous female telephonically advised the Tulsa RA a friend was employed in a low-level service type position. He told her that he had been in the storeroom at [redacted] was closed one night and saw and overheard two individuals meet in the storeroom. From this conversation and observation he determined that one of the men had been brought in from Chicago to kill Roger M. Wheeler and he was being paid in the storeroom for the killing. The anonymous caller advised she believed this occurred on the day after the murder of Wheeler. The man apparently received a lot of money and the man observing this alleged conversation and pay-off had advised that he did not know either of the two men. This man left the Tulsa, Oklahoma, area very shortly thereafter.

The anonymous caller advised that she had finally decided that this information should be provided to the authorities. However, she refused to provide either her identity or the identity of the person who had observed this alleged meeting and pay-off. She stated that should she be recontacted by the person observing this meeting she would try to convince him to contact the FBI.

On 11/29/82, Detective [redacted] Tulsa PD, advised that the fingerprints he had received from the Phoenix Department of Public Safety of [redacted] had been compared with the latent palm prints obtained from the vehicle of Roger M. Wheeler without an identification. He noted that no actual fingerprints themselves had been recovered from the crime scene.

b6
b7C

[redacted] advised that he had recently been advised by the Arizona Department of Public Safety that the [redacted] is [redacted] (maiden name) and she is a white, female, DOB [redacted]

Indices of the Oklahoma City Division are negative concerning [redacted] However, Oklahoma City file 87-20709 concerns a [redacted] and Oklahoma City reference 87-17859 serial 112 in 1977 referred to [redacted]

ALL OFFICES should be aware that any violations of state or federal laws developed in this investigation should be pursued on their own merits and proper prosecution achieved. The following investigation was conducted by SA [redacted] at Tulsa, Oklahoma:

On January 21, 1983, Sgt. [redacted] Connecticut State Police, Meriden, Connecticut telephonically advised that the Jai Alai Fronton at Bridgeport, Connecticut, is a very financially successful operation. Financing involving [redacted] and this fronton was arranged through use of Teamsters Union funds.

b6
b7C

[redacted] is not aware of any particular problems with [redacted] and his associates or the operation of the Bridgeport Jai Alai at this time.

STANLEY *BERENSON NH CT*
[redacted] advised that his office is currently in the final stages of the complete background investigation of L. Stanley Berenson, also known as *Buddy Berenson*, for his final approval of a license to operate a jai alai fronton in Connecticut. Berenson now has a dog race track located in Belmont, New Hampshire. Recently Berenson attempted to establish a jai alai fronton in New Hampshire but was not successful. In this instance he was attempting to have the State of New Hampshire finance the construction of the facilities for the jai alai operation. Berenson has stated that he intends to make further attempts to establish a jai alai fronton in New Hampshire and expects to ultimately be successful in this regard.

no loc
On January 13, 1983, attorney [redacted] attorney for [redacted], in matters concerning *World Jai Alai, Inc.*, advised that on the previous day Buddy Berenson called [redacted] and advised that he desired to purchase all or part of World Jai Alai, Inc. Berenson said that he was using up all of his depreciation for tax purposes on the Hartford, Connecticut, Jai Alai and needed frontons for additional tax shelter. Berenson stated that the price which Roger M. Wheeler, Sr. sold him the fronton in Hartford was 4-1/2 times the cash flow. He indicated that he would be willing to pay something of this nature for World Jai Alai, Inc.

b6
b7C

[redacted] advised that he was not sure that this figure of 4-1/2 times the cash flow was the actual sales figure when Berenson purchased the Hartford Jai Alai Fronton.

[redacted] advised Berenson that due to the [redacted] still not being settled it would have to be a very profitable sale for [redacted] to even consider selling World Jai Alai, Inc. or any portion thereof at this time. He advised Berenson that he would have to have \$40 to \$45 million gross and net at least \$20 million in such a sale.

ENCLOSURE

136

[redacted] is not interested in selling World Jai Alai, Inc. at this time to Berenson.

On January 25, 1983, [redacted] advised that he has not talked to [redacted] at all recently. It has been many months since [redacted] discussed World Jai Alai with him and made any type of mention to purchase and/or operate World Jai Alai, Inc.

b6
b7c

[redacted] further advised that Buddy Berenson called him the previous Friday afternoon to again state that he is interested in purchasing all or part of World Jai Alai, Inc. [redacted] told Berenson that the tax situation makes it impossible for [redacted] to sell World Jai Alai, Inc. at this time.

Berenson then offered to execute an option for the purchase of World Jai Alai, Inc. in four years with Berenson to operate the corporation during the next four years before exercising this option to purchase. Berenson indicated that through good business practices he could eliminate approximately \$1 million per year in current expenses.

[redacted] indicated that he is not interested in selling World Jai Alai, Inc. to Berenson at this time or at any time in the foreseeable future.

SUPPLEMENTARY OFFENSE REPORT

NAME OF COMPLAINANT, FATHER, MOTHER

Roger M. Wheeler

TYPE OF OFFENSE

Homicide

6100 South Lewis

5/28/81

Approximately 1145 hours this date, myself and Corporal [] went to the Medical Examiner's Office. The autopsy on the victim was being conducted and we observed the final third of the autopsy. Following the autopsy, we spoke with Dr. [] who had conducted the autopsy. Dr. [] stated that the bullet entered at an upward angle from left to right, struck the skull, and ricocheted at a downward angle, left to right, and lodged in the neck. Several fragments of the bullet were found inside the skull, but the major portion of the bullet was recovered from the neck.

The victim's second and third fingers on his left hand showed or had smudges of soot on the top knuckles. Sample of this soot were taken and turned to the Property Room.

Dr. [] advised there was no tattooing on the exterior of the wound, but that there was tattooing inside the skull indicating a contact or near contact head wound. There were 1/8th of an inch abrasions on the second and third fingers of the victim's left hand. b6 b7C

The major bullet fragment, the smaller bullet fragments, and the sample of soot removed from the victim's hand were turned in by Corporal [] A much more detailed autopsy report will follow as it becomes available.

THIS OFFENSE IS DECLARED:

TYPE OF OFFENSE Homicide - Gun Shot Victim		

VICTIM'S VEHICLE:

Dark blue vinyl over dark blue '79 Cadillac Fleetwood, 4 door, VIN #6B696A9177536, bearing '82 Oklahoma OC-1022.

EVIDENCE:

Recovered: the following items of evidence were recovered from the above victim's vehicle at Al's Storey Wrecker Service, 402 Heavy Traffic Way, by reporting officer at 1900 hours on 5/30/81. Both items were turned to Property Receipt #L-8733 to be held as evidence.

Item #1: rectangular irregularly shaped piece of a dark blue vinyl top of the victim's vehicle approximately 20" wide and 74" long from the left side of the vehicle.

The above piece of vinyl top was removed by slitting the top approximately 20" in towards the middle from the outside leftside that was the outside leftside of the vehicle from front to rear and the cover was then peeled from the roof and includes narrow sections which covered the post between the windshield and the driver's window, the post between the driver's window and the rear window of the left side and the roof area between the rear window and the window of the rear door of the driver's side.

The above piece was removed by reporting officer with the assistance of Det./Cpl. [redacted] at Al's Storey Wrecker, 402 Heavy Traffic Way, where it was stored.

Item #2: one (1) clear plastic lense removed from the marker light on the door post between the front rear doors on the left side of the vehicle.

The above item was recovered by reporting officer due to the fact that it appeared to have a possible finger or palm print across one end of it. This lense was not fingerprinted at the time but should be checked when item #1 above is packaged before being sent for fingerprint processing in FBI lab.

Both of the above items were marked with the initials [redacted] and a date "5/30/81". The lense was marked on it's inside surface and the vinyl top was marked on the underside corresponding with a point which would have been near the front windshield at the far inside edge of the piece of the top.

DETAILS:

Reporting officer was requested by Det/Sgt. [redacted] to recover a section of the vinyl top of the above victim's vehicle where it was parked at the Al's Storey Garage at 402 Heavy Traffic Way. Reporting officer proceeded to Al's Storey at approximately

In the process of removing this section of the vinyl top reporting officer also observed a clear lens cover for a marker light on the door post between the front and rear doors on the driver's side of the vehicle which appeared to possibly have some finger or palm print on it. This piece was not processed at the scene but was turned in to be checked when the section of the vinyl top is packaged for shipment to the FBI lab.

Reporting officer marked the items of evidence and turned them into the Property Room on a supplemental to the original Property Receipt #L-8733.

Q: Please state your ^{DOB} full name, date of birth, home address and phone number?

A: [REDACTED]

Q: At approximately 4:30 this evening, would you relate what unusual occurrence you observed in the parking lot of Southern Hills Country Club?

A: I was sitting my car together with [REDACTED] when we heard a loud crack, couldn't tell whether it was a forecracker, gun or what, but we both looked around and I saw this man going across the street, in a fast walk, almost trotting. He was carrying a gun in his left hand, down by the side of his leg. The gun was long barreled and it was partially covered with a towel. There was a car parked across the street, backed in. When the man got in the car, they spun out and left, ~~xxx~~ so the car had to be running. Went up by the pro shop, turned to the left and went out towards the 61st Street exit. [REDACTED] jumped out of the car, run up to the victim's car, which was approximately 100 ft. from us and we looked in the car, he was partially sitting up, blood was completely covering his face, he had been shot in the face. I asked [REDACTED] to run up to the pro shop and call an ambulance and a doctor, that a man had been shot.

Q: How many shots did you hear?

A: Heard one shot.

A: His hair was black and straight, his beard was black, it wasn't full, bushy, it was kind of stringy.

Q: When you went to the victim's vehicle to investigate what you had seen, did you see any firearms or ammunition any place about the vehicle?

A: I saw no firearms at all. There were two rounds of ammunition laying on the ground ~~the~~ by the front door, driver's side. And later when we got a doctor down, they opened the front door and there was an additional round under the man on the seat. By that time he had fallen over and revealed that cartridge down there. I understand they had not been fired and they looked to me like they had not been fired.

Q: Did you see a towel or paper sack in possession of the suspect? And if you did, would you describe it?

A: I didn't see a paper sack. I saw a towel partially wrapped around the gun. The color was a dirty white, or quite soiled.

b6

Q: Would you give a brief description of the vehicle the suspects left in?

A: The car was a beige, ranging almost to an orange, it was a 4-dr, I thought it was a Ford LTD.

Q: Please state your full name, age, date of birth, home address, home phone number and place of employment?

A: [REDACTED]

Q: Please relate in detail what you observed at approximately 4:30 P.M., 5/27/81, on the parking lot of the Southern Hills Country Club?

A: I played golf and finished at about 4:20 and walked out to the van [REDACTED] down south into a parking lot across from the swimming pool. At that time I walked across to the pool and I bought us Cokes and walked back to the van. We then sat in the van and drank our Cokes and were just talking. [REDACTED] was facing the same way as the victim car. After about 10 minutes we heard a shot over to our right and as we turned to look, I saw a mid 40's male, white, grey hair, 5'10", 200#, closing the door to the car and walking off with a gun in his right hand. He was wearing a beige sports jacket, dark pants and dark shoes. He was also wearing dark sunglasses. He walked rapidly across the parking lot where he got into his car which was driven by another man. The other man appeared the same, he had dark sunglasses and a beard and moustache. As soon as the shooter got into the car, the car drove off towards 61st and Lewis. I then got out of the car and walked over to the victim's car where I saw the victim had been shot in the head. [REDACTED] got help and told them to call the ambulance and the police and returned with [REDACTED]. The car was beige, 4-dr sedan, the license appeared to be Okla ST 510 and then there was a question mark cause I didn't know what the last digit was. The gun was a ~~Wad~~ black, long barreled pistol. There was only one shot. And the accomplice already had the car started because they took off. The murderer had a brown paper sack and a towel in his hands, along with the gun.

Q: What is [REDACTED] name?

A: [REDACTED]

Q: What type of vehicle were you in?

A: [REDACTED]

b6
b7C

Q: Where was that vehicle in relation to the victim's vehicle?

A: It was parked 50 yards south along the same line of cars.

Q: How loud did the shot sound?

A: The shot appeared to be muffled and was equivalent to a firecracker.

Q: Do you recall which hand the other objects were ~~at~~ held in by the suspect?

A: As I recall, the suspect was carrying the gun and the paper sack in the right hand and the towel in the left hand.

Q: What condition was this paper sack in?

A: The paper sack appeared to be an old sack that had been handled and I couldn't judge ~~the~~ the size of the contents because he was able to hold it in his hands

Q: Did it appear to have a bottle or similar object in it?

A: No, it did not. It appeared to be a short object, because nothing protruded out of the sack.

Q: Where did the suspect walk in relation to the victim's vehicle, after the shot was fired?

A: The suspect crossed the parking lot diagonally approximately three spaces to the north and 20 yards to the rear.

Q: How was the suspect vehicle parked?

A: The suspect vehicle was parked backed into its space, which allowed it to drive out.

Q: Please describe in detail the suspect who apparently fired the shot?

A: White male, mid 40's, 5'10", 200#, dark complexion - a good suntan, a full beard and a moustache, grey and black intertwined, hair covered half the ears, it was dark and had grey in it also, it was straight and it was parked to the side, but I'm not sure which side. ~~Describe the sunglasses~~ [REDACTED]

Q: Describe the sunglasses he was wearing?

A: The suspect was wearing dark lensed sunglasses with wire frames, and not mirror or reflective.

b6
b7C

Q: Describe suspect's clothing for me?

A: Suspect was wearing sunglasses, no hat, a beige sports jacket, sports shirt, no tie, dark pants, slacks, and dark shoes, not golf shoes.

Q: How would you describe this man's general appearance?

A: The man appeared similar to [REDACTED]

Q: How would you describe the general style of his clothing?

A: His attire was casual, his jacket was a light jacket and he had street shoes on.

Q: Describe in detail the suspect vehicle?

A: Suspect vehicle was a beige/copper metallic 4-dr sedan, possibly a Pontiac Ventura, Ford LTD, range 78 to 80, larger than a Granada. The top was vinyl, same beige/copper color.

Q: In what manner did this vehicle leave the parking lot?

A: After the suspect entered the car, the car left rapidly, but did not over accelerate.

Q: Do you think you could identify the suspect who apparently shot the victim, if you saw him again?

A: No I don't think so cause he's so average looking.

Q: Do you think you could specifically identify the type of vehicle suspect used?

A: I could identify the color and the general size and shape, but I couldn't positively identify the car.

Q: What was the position of the victim when you observed him?

A: The victim was sitting in the driver's seat of his car, leaning to his right. He appeared to be shot in the face. [REDACTED]

LEAD #

5 Reporting officer went to [redacted] at approximately 9 on 5/28/81 and interviewed [redacted] for approximately 6-1/2 hours in reference to possible motives for [redacted] killing. He advised that he had been thinking it over and a motive could have come from one of three basic sources, arising from [redacted] business dealings. He advised the first source which came to mind was result of [redacted] activities in a company named World Jai A-Lai. He advised that [redacted] involvement in Jai A-Lai activities began when he purchased a Connecticut organization. He advised that the Connecticut company was a can of worms when it was bought. He stated the conditions of the business environment there were extremely bad due to bad publicity arising from games having been fixed and players on the take there. He advised that paramutuals were new in Connecticut, having only been there only 4 years. He stated that the Connecticut government had approved paramutuals in order to generate revenue. This activity was reflected upon negatively by the Hartford Current newspaper in Hartford where the Connecticut organization was located. He advised that the victim had bought the fronton in Hartford and that, from the start, there had been trouble, particularly because there were two agencies who investigate the activities of paramutuals there; #1, a division of special revenues, which had their own investigators and records, and #2, the state police, who were in charge of making investigations of applicants and their background. He advised that the victim sold the Connecticut fronton to a former stockholder in the World Jai A-Lai company, Stanley "Buddy" Berenson. He advised the sale took place in November 1977 or 1978.

He also advised that Buddy Berenson had tried to block some takeover activities of the World Jai A-Lai company. He advised that Berenson and [redacted] the [redacted] of the World Jai A-Lai activities in Florida, had clashed because Berenson felt that he still owned the company that he had been bought out of.

b6
b7C

The victim had struck a deal with Berenson on the Hartford Jai A-Lai and that was finalized a month-and-a-half ago. [redacted] advised that he had talked to Berenson

(75)

on the morning of 5/27/81 and that there were, apparently, no problems between him and the victim over the finalized transaction.

[] advised that the World Jai A-Lai company entered into a partnership with 3 dog-track companies in Florida, being called Summer Jai A-Lai. He stated that the Summer Jai A-Lai Company had a permit for 107 day season and that the permit arose from the partnership purchase of the Miami Beach Kennel Club, which had been condemned and thereby making available another permit for paramutuals. b6 b7C

[] stated that the permits for paramutuals are limited and that there are no new permits issued since the last was issued 30 years ago. He advised that the permit is the first thing required in order to operate a paramutual. He advised that World Jai A-Lai purchased the facilities of the Miami Beach Kennel Club and that, leased those facilities to the partnership, Summer Jai A-Lai. He advised that the other members of the Summer Jai A-Lai partnership were the West Flagler Dog Track in Dade County, the Biscayne Dog Track in Dade County, and the Hollywood Dog Track in Broward County. He advised that this partnership agreement was a source of several possible motives for [] killing.

He advised that the Winter Jai A-Lai Company, which is a part of the World Jai A-Lai Company, competed with the Summer Jai A-Lai Company. He advised that the Summer Jai A-Lai competed with the regular dog track operations of the other members of the partnership and this created some problems also.

[] advised that the greatest source of dissatisfaction came from the West Flager Dog Track, which was owned by [] family. He advised that they have had a bad year for several reasons, though the owners are a nice family. He advised that the competition set up by the Summer Jai A-Lai partnership organization competes most heavily with the business for their track.

He advised that a member of the West Flager Company is [] who is an ex-con for federal income tax evasion, who is also allegedly []. He advised that [] had received a pardon from the governor of Florida one month after he was imprisoned on the tax evasion charge. b6 b7C

He stated that [] family had tried to get [] out of the Flager Company because of the law in Florida regulating persons who have been criminally active from owning part of a paramutual. He advised that [] got around this by putting his money in a blind trust. He further advised that [] with [] a known mafia figure.

[] advised that [] the Commissioner of Special Revenue, in Miami FL, knows about these dealings.

[] also advised that [] of the Flager Company, had been [] for the operation of the Flager Dog Track until after the partnership agreement was made. The family was disgruntled over that agreement and they replaced [] who was a 'yes man' for [].

The other members of the partnership were the Biscayne Dog Track, owned by [] family, which [] said seemed to be pretty nice people. He advised a third dog track company was Hollywood Dog Track, which is owned by a company he believed to be called The Investment Company of S. Florida, which is a company owned by [] [] who supposedly live in Detroit. He advised that []

was an extremely tough negotiator.

b6
b7C

One of the sources of trouble out of the Summer Ja [redacted]-Lai partnership is [redacted] that company there. [redacted] is H. Paul Rico, who is an ex-FBI agent, who worked with organized crime investigations when he was assigned to Boston and Miami. [redacted] advised that [redacted] has repeatedly tried to buy out [redacted] interest in the Jai A-Lai company, but [redacted] was a tough negotiator and [redacted] was never able to raise the money sufficient to buy out [redacted] interest. This has been especially frustrating to [redacted] advised that this may have motivated [redacted] enough to be interested in using a hit man.

[redacted] also advised that part of the trouble that [redacted] had also arose out of the actions of a disgruntled former employee, which [redacted] would not give a raise to. He advised that this had occurred [redacted] The man who was disgruntled was [redacted] who had worked for [redacted] in the [redacted] [redacted] He apparently got a better offer and went to [redacted] which was subsequently bought out by [redacted] He advised that [redacted] then came back [redacted] looking for a job and [redacted] hired him as [redacted]

b6
b7C

He advised that [redacted] did not believe that he was performing as well as he should have been and that he did not deserve a raise so [redacted] [redacted] advised that someone made accusations to the securities exchange commission (SEC) which resulted in a year-long investigation [redacted] which culminated in their statement that [redacted] had overcharged [redacted] He stated [redacted] hired Coopers Lybrand auditors and, after their audit in their offices, it was shown that [redacted]

[redacted] believes that this SEC investigation was stimulated by [redacted] and that under the freedom of information act, the complaining party could probably be located the SEC records.

Another source of possible trouble that [redacted] has considered is one which arises from a 13,000-acre farm which [redacted] owned [redacted]

He advised that [redacted] of that ranch. He stated that [redacted] recently leased the ranch because they were unable to make the ranch productive enough. He advised that the person to whom the ranch was leased moved [redacted] bunk house on the ranch and that [redacted] allegedly was growing marijuana in the bunk house and had asked one of [redacted] if they wanted to sell some grass at their school.

\$50,000 for his vote for that transfer. He also advised that [redacted] had talked with a senator in New Jersey who was involved in the Ab-Scam proceedings about getting support for a permit in that state to allow Jai A-Lai. He advised that, due to the Ab-Scam investigation, the lobbying for paramutual was ended before any bill was written for the senate.

b6
b7C

He also advised that they had met with [redacted] of Connecticut State Police in reference to their Hartford Jai A-Lai and that [redacted] had asked [redacted] about the involvement of organized crime in that business. He stated [redacted] had told [redacted] that, if there was any organized crime in it, that he did not want any part of it.

He advised that [redacted] has since quit the state police and gone to work as the [redacted] with Connecticut Jai A-Lai.

[redacted] also mentioned trouble that [redacted] had had with wallet thefts at the Southern Hills Country Club and that [redacted] had done some work on attempting to find out who was behind those thefts. He also advised that [redacted]

[redacted] advised that there were dealings with a Ricks Exploration Company and a Murfin Drilling Company over disputes on bills which [redacted] had refused to pay over those companies mishandling operations. He advised that there had been some lawsuits filed over those deals, however, he did not think anyone involved there would have had [redacted] killed.

b6
b7C

[redacted] also advised that [redacted] may have some information on some deals that [redacted] was involved in that he did not mention to him. He also advised that [redacted] at Merrill-Lynch, may also have some additional information as well as [redacted]

[redacted] referred reporting officer to [redacted] whom he believed might be able to shed some light on some of [redacted] dealings locally.

Reporting officer interviewed [redacted] at his residence at 1820 hours, 5/28/81. In that interview, he could only give basic information on several possible sources of trouble for the victim. He advised that the victim had told [redacted] early in their dealings for Jai A-Lai companies in Connecticut, that he could possibly get a 50% interest in the business. [redacted] advised that this was not a promise made by Roger, but just a statement, though [redacted] may have taken it as a promise, and could still be holding that against the victim due to the fact that he never received such an interest.

b6
b7C

[redacted] also advised that the victim had had a run in with [redacted] over the [redacted] was supposed to have received \$2.5 Million Dollars legal fees. He advised that [redacted] a settlement of \$1 Million Dollars to be paid over a 10-year period and that that settlement was made by [redacted] a few weeks ago.

[redacted] advised that [redacted] was even planning to attend the funeral of the victim.

Reporting officer then went to the residence of [redacted] where he was interviewed at 2000 hours in reference to [redacted] in recent contract negotiations with the Suncoast, Inc. A-Lai partnership in Florida. [redacted] advised that the trouble with [redacted] was not such that, in his opinion, [redacted] would be motivated to have the victim killed. He advised that he did not think that [redacted] would logically come to the conclusion that that would have been a way to get into the ownership of the Jai A-Lai company there which [redacted] also advised that he was aware that [redacted] and Rico were very close and that Rico has many contacts with people who can get things done.

b6
b7C

[redacted] advised that the last meeting per contract negotiations with members of the partnership in Florida, were centered around cleaning up aspects of the deal which they had put together a year ago. He advised that the victim had left open some issues and problems which he wanted to clear up. One of those problems was centered around the 1% share of the total take on the better's pool, which by Florida law, is entitled to the owner of the fronton for the purpose of capital expenditures. [redacted] advised that this was a particularly sore spot with the Flager dog track due to some tax problems that are created for them. He also advised that he knew of no other major points of the negotiation that might have created any trouble, though he would have to check the actual contracts to make sure.

- 6 Reporting officer interviewed [redacted] at the victim's residence at which time [redacted] advised that the observation made by [redacted] on the day of the killing in reference to the victim's being preoccupied and worried more than normal, was unfounded. He advised that Roger was always distracted and that he noticed nothing any different about Roger's condition during [redacted] that day. He advised that [redacted] and that, due to Roger's highly competitive spirit, he was probably upset over that. He advised that the phone calls made by Roger [redacted] were just one, so far as he could recall, and that one was one which [redacted] requested Roger to make in order to arrange for a [redacted] in Oklahoma City where they were due to [redacted]

b6
b7C

[redacted] advised that Roger had told him that he had had a hectic morning that day with the SEC and the American Magnesium Company bankruptcy dealings, and that Roger was going back to the office [redacted] in order to check on some papers for the SEC proceedings.

[redacted] refused to speculate on any reasons for Roger's killing, however, he did say that resisting a possible kidnap attempt sounded like a good possibility to him.

- 7 Authority of Det. Sgt. [redacted] at 1105 hours, 5/28/81, the [redacted] with the Duncan PD, [redacted] had the tag number, ST 5104, in his possession, which was supposedly on the vehicle registered to [redacted]. He advised that there was another tag on that vehicle and that the [redacted] had been lost or stolen by the previous owner.

- 10 [redacted] advised that he was not aware of any recent trips made by the victim, however, the victim flew in his own planes which are owned by a company formed for that purpose entitled Jet Charter. He advised that [redacted] had driven to Snyder TX recently in reference to the American Magnesium Company bankruptcy. He advised that the logs of the trips made by the company planes should reflect all trips made by [redacted] and the dates of those trips.

[redacted] stated that on the date the offense occurred, being 5/27/81, he had left St. Francis Hospital and was westbound on 61st sitting at the intersection, waiting to turn right on Lewis, when he observed a light colored car sitting beside him. It was occupied by two white males which match the basic physical descriptions of the suspects in this offense. [redacted] stated he did not get a good look at the driver, however, he stated he did observe the passenger in the vehicle and described him as being a white male in his, probably mid to late thirties, with relatively short brown hair and a beard. [redacted] stated he could not give an estimation as to the subject's height and weight because he really did not pay that much attention to them. He stated that after thinking about it, the only thing that made him think it might possibly be related to the homicide is the fact that when the light turned green, the subject vehicle continued west on 61st Street at a high rate of speed. He also stated that the time element might possibly fit with the homicide due to the fact that he observed EMSA Ambulance headed for Southern Hills at the same time that he saw the vehicle.

[redacted] stated that he had not seen the newspaper with the composite drawings in it, but that he would be willing to look at them to see if either one of them looked like the individual he had seen.

Approximately 1345 hours, reporting officer received an in-coming call from [redacted] OSBI, who stated that he had received a call from their agent in Elk City, Oklahoma, advising that Elk City Police Department had seen the composites and had two individuals living in Elk City who closely resembled these composite drawings and who are also very capable to doing something such as this homicide. [redacted] stated that at this time he had the name of [redacted] hair, and subject [redacted] name unknown. [redacted] stated that he had been advised these individuals were originally from California, but had been in Elk City for approximately a year.

b6
b7C

Reporting officer requested that Agent [redacted] get back with the agent in Elk City and attempt to obtain all available information from the Elk City Police Department and any other source available to him concerning these individuals and forward the same to the Tulsa Police Department.

Shortly after the FBI, Boston, became aware of the murder of John B. PREDICATION

Edward Brian Halloran, aka Brian Halloran, white male, date of birth July 23, 1940, place of birth Boston, Massachusetts, was a big, burly Irishman used as "muscle" for many years by the Boston Irish mob, known commonly as the Winter Hill Organization (Winter Hill). Winter Hill was headed for many years by one Howie Winter, but Winter has been incarcerated since 1977 and the organization since his incarceration has been headed by James "Whitey" Bulger and Stevie Flemmi. Howie Winter's top lieutenants included such well known career criminals as Joseph M. McDonald (Top Ten Fugitive captured in New York City September, 1982), [REDACTED] (Identification Order Fugitive captured in Florida during the summer 1982), and John V. Martorano (currently a Federal Fugitive). Halloran found particular favor with Howie Winter and owed strong allegiance to Winter. Halloran and the newer Winter Hill leadership had a mutual dislike and distrust.

b7C

Halloran's criminal background was extensive, including bank robberies, loanshark enforcement and collection, and participation in gangland "hits." More recently he had been involved in the cocaine traffic, both in dealing and using, as well as ripping off cocaine dealers. On October 13, 1981, George Pappas, a convicted drug dealer and past associate of Halloran, was slain by a single gunshot in the head in a Chinese restaurant in Boston's Chinatown. Halloran and Jackie Salemme, brother of LCN figure Frank Salemme, were indicted in October, 1981 for the Pappas murder. After a brief fugitive period, Halloran surrendered to the Boston Police.

b7D

By way of background, Roger M. Wheeler, Chairman of the Board of Telex Corp., Tulsa, Oklahoma, and President of World Jai Alai, Miami, Florida, was murdered by a single gunshot wound in the head seconds after entering his car in the parking lot of Southern Hills Country Club, Tulsa, Oklahoma, on May 29, 1981, by an unknown white male who was accompanied by a second unknown white male driving the getaway car.

John "Jack" Callahan is an accountant [redacted] back in 1974 when [redacted] frequented [redacted] in Boston. [redacted] Callahan to many of the Winter Hill group at [redacted] Callahan became popular with many of them because he was a "fun guy" who partied, had a lot of "broad" and spent a lot of money. Callahan developed a closer relationship to [redacted] [redacted] after Howie Winter went to prison.

b6
b7C
b7D

Callahan was associated with World Jai Alai in Miami, Florida, as well as several other companies. Source first became aware of Callahan's ethics when, [redacted] years, Callahan [redacted] when Callahan was carrying the cash receipts from his World Jai Alai operation in Florida to a location where it was to be picked up by Brink's guards. [redacted] but it revealed to source the nature of Callahan. Callahan, [redacted] Winter Hill people, was well aware of the fact that they made their money from engaging in criminal activity.

b6
b7C
b7D

Callahan fits in [redacted] whenever money propositions or transactions are involved. Source would describe Callahan as a man who invests money, "washes" or "cleans" money, and advises on the ways to use or make big money, [redacted]

[redacted] the Winter Hill crowd goes back to the earlier crowd-Howie Winter, Joe McDonald, [redacted] and not to the more recent leaders [redacted] close to Callahan, and is on better terms [redacted] Source never [redacted] and not [redacted] although [redacted]

Murder of Tulsa, Oklahoma, businessman Mr. Wheeler

In approximately [redacted] 1981, [redacted] telephone call from John "Jack" Callahan telling [redacted] Callahan's apartment, that he had something [redacted] to Callahan's apartment, apartment 503, 10 Commercial Wharf South, Boston, Massachusetts, located over what used to be the "Rusty Scupper" restaurant. [redacted] Callahan was there [redacted]

b6
b7C
b7D

[redacted] expected to [redacted] Callahan told [redacted] Callahan had a Tulsa, Oklahoma, business associate named Wheeler who had become very dangerous to Callahan's operation, dangerous to the point he could put Callahan in jail, and that Wheeler had to be "moved on". Callahan explained that he (Callahan) had some of his own people close to the money in the World Jai Alai (WJA) operation and that Wheeler discovered that something was not right and then proceeded to fire five or six of Callahan's people and hire some of his own people for some unknown positions. Callahan said that there was big money involved, a million dollars or more, and that Callahan could get into some serious trouble if Wheeler decided to call in the police. He said that if Wheeler were to be removed, or "moved on", Callahan would have no trouble in controlling the WJA operation.

b6
b7C
b7D

Around this point [redacted] if the police were to come in, their friends (i.e., the friends of Callahan, [redacted] in WJA) might not hold up, and that a chance of their being arrested and questioned could not be taken. Source is not certain as to exactly in what way [redacted] figured into the WJA operation, but [redacted] earlier Callahan had told [redacted] [redacted] were looking to get a piece of the WJA action. Another time Callahan told [redacted] got a piece of the action in WJA through some Florida contacts of [redacted] [redacted] who were needed to set the operation in motion.

b6
b7C
b7D

Anyway, with regard to [redacted] Callahan's apartment around [redacted] 1981, with Callahan [redacted] Callahan, who did almost all the talking [redacted] said that they (meaning Callahan, [redacted] were going to get Wheeler set up and then [redacted] i.e., murder him. Callahan said that [redacted] involved with them and in fact [redacted] murder or "whack" Wheeler. [redacted] that Paul Rico, who is an official at WJA in Florida and a former Federal Bureau of Investigation (FBI) agent, is also a close associate of Callahan, who would probably do the leg work in setting up Wheeler, i.e., determining his habits, etc. [redacted] trusted Rico as he knew him since he, [redacted] questioned Callahan as to [redacted] "hitting" the guy. [redacted] would think about it some more and mumbled a few other unrecalled comments, but basically [redacted] disagreed with [redacted] that an alternative to the murder be considered, [redacted] wanted nothing to do with [redacted]

b6
b7C
b7D

Callahan mentioned [redacted]
[redacted] would be involved and that Callahan
had [redacted] about the deal.

b6
b7C
b7D

The entire meeting that day lasted [redacted]
[redacted] had parked in
front of Callahan's building. He recalls the day only as a clear
cold day. [redacted] left Callahan, [redacted] with
the understanding [redacted] the
Wheeler deal.

Source explained by way of background that Callahan had
been president of WJA in Florida, and then had to get out of the
operation because of some bad publicity received in a Hartford,
Connecticut, newspaper to the effect that Callahan was connected
to or associated with some organized crime figures, namely, Howie
Winter, [redacted] Callahan's name
was removed from being officially involved with WJA, but he still
maintained some unknown interest in the jai alai operation, the
exact nature of which is unknown to source. [redacted]

b6
b7C
b7D

[redacted] was Callahan's man and Callahan in
effect operated WJA through [redacted] was done
with the knowledge of this Wheeler guy. There was a great deal
of money involved in and to be made from jai alai and, although
he is not certain of the details, source believes Callahan was
"skimming" money off the jai alai operation from the fronton in
Miami, Florida. [redacted] Callahan's key man in WJA and
who protected Callahan's interests, was also believed involved.

Several days after [redacted] saw
Callahan and casually asked him what was happening with regard
[redacted] Callahan said very little,
only indicating that they were still working out the details,
that there was nothing definite and that he (Callahan) would be
getting back in touch with [redacted]

About [redacted] a telephone
call from Callahan asking him to come over to Callahan's office,
which is located in apartment 401, 10 Commercial Wharf South,
Boston, downstairs from Callahan's apartment. When [redacted]
arrived, [redacted] was not there. [redacted]

b6
b7C
b7D

[redacted] were not there with Callahan. Callahan then
[redacted]

thought it [redacted] involved in the Wheeler deal,
that it was [redacted] would take care of it

[redacted] Callahan [redacted]
involved [redacted] to begin with.

[redacted] did not hesitate [redacted] believes it is not unusual to [redacted] was involved and where there was a lot of money involved. in this case a million dollar or more. [redacted] but is uncertain exactly how. [redacted] in Boston. He went to the Ft. Lauderdale, Florida area with [redacted] and stayed at the [redacted] flew there on Delta Airlines, possibly under the alias of [redacted] also thinks [redacted] but he cannot be certain at this time.

b6
b7C
b7D

Later, in approximately May, 1981, source read about the Wheeler "hit" in the newspaper or he may have heard it before that, he is not certain. He recalls that when he first heard about the Wheeler murder, neither Callahan, [redacted] were around. [redacted] to contact Callahan through a mutual acquaintance, [redacted] called Callahan's answering service and also his office. [redacted] told by [redacted] that Callahan was away for a few days. When Callahan did return, it seemed that it was either the same day or the day after source had read about the Wheeler murder.

b6
b7C
b7D

Source saw Callahan either at the [redacted] in Boston or at [redacted] South Boston. Another man, who source declined to identify at this time, was present during the conversation source had with Callahan. Source later identified this individual as [redacted]

[redacted]
He usually carries a weapon and has a criminal record. He is employed at [redacted]

[redacted] asked Callahan "who clipped" Wheeler and Callahan said that [redacted] Callahan said [redacted] that he wore a golf cap, sunglasses and a false beard. [redacted] something about witnesses to the murder and Callahan responded that it was no problem, that they got away clean. Callahan said that [redacted]

b6
b7C
b7D

[redacted]
[redacted] wore a false moustache or beard. Callahan mentioned a witness in the parking lot who saw [redacted] get out of his car and walk over to Wheeler's car.

Callahan said nothing about [redacted] traveled to Tulsa, or whether Callahan accompanied them. Source does not know any aliases [redacted] that [redacted] in false names. Disguises are used by these guys frequently in pulling off a "score". While source does not know the mode of travel used, he thinks they would have driven to Tulsa, possibly with a rented car. Source then changed his opinion on this point and said they probably flew to Tulsa and rented cars and used stolen license plates. Callahan said nothing about how the gun, car or other items used in the murder were disposed of, however, were probably [redacted]

Source noted the following:

Callahan has a friend [redacted] involved in financial investments at the First National Bank of Boston. Insofar as source knows, the guy is legitimate. Source believes [redacted] (phonetic).

[redacted] Boston, has a [redacted] who was or is involved in WJA. Source believes that Callahan possibly met Wheeler through the [redacted] Source has heard that [redacted] for a great deal of money. They did so because [redacted] is an easy mark.

[redacted] is believed to reside at [redacted] Massachusetts, in an [redacted] [redacted] was employed by [redacted]

Source was asked why he was coming forward with this information. He advised that [redacted] advised he is willing to testify in open court to what he said, [redacted] immunity from prosecution. He said he would [redacted] No promises were made to him, however, he was told that the matter would be discussed with FBI and Justice Department officials.

Source noted that Paul Rico supposedly earned \$65,000 per year salary from WJA.

On May 11, 1982 at approximately 6:00 P.M., the following individuals were slain in a hail of bullets outside The Pier Restaurant, 145 Northern Avenue, and in front of the Port Cafe, 150 Northern Avenue, Boston:

EDWARD BRIAN HALLORAN, aka
Brian Halloran
Date of Birth: July 23, 1940
Place of Birth: Medford, Massachusetts
SSN: 010-28-6786
FBI #: 446-279-F

MICHAEL J. DONAHUE
Date of Birth: May 29, 1949
Place of Birth: Boston, Mass.
FBI #: 835-077-J3

The slayings occurred moments after Halloran and Donahue had departed The Pier Restaurant and gotten into Donahue's blue 1978 Datsun F10 two door, VIN KPLF10-120543, Massachusetts registration 199-CPX, being driven by Donahue with Halloran as a passenger. The vehicle was registered to [REDACTED]

b6
b7C

The first shots were fired from a car that is believed to have pulled alongside the Donahue car facing the opposite direction and located between The Pier building and the Donahue car. Then, after the Donahue car traveled across Northern Avenue and crashed into a parked car in front of the Port Cafe, the shooter (s) car made a U-turn on Northern Avenue, and pulled up behind the crashed Datsun, where a second series of shots were fired. The shooter (s) made a getaway east on Northern Avenue.

No weapons were found on either Halloran or Donahue.

Examination of the shot-up Datsun by the Boston Police Department revealed the following gun-shot damage:

Three (3) bullet holes in the metal on the outside of the passenger door just below the window, with corresponding exit holes inside the door.

2.

One (1) bullet hole in the lower corner of the windshield, passenger side.

Two (2) bullet holes in the right rear side window, which was shattered.

One (1) bullet hole in the chrome strip below the right passenger window, exiting inside the door.

- Q. In that series can you estimate how many pops you heard?
- A. It was like a volley of shots so that, you know, it was
like one after another in rapid succession. I don't
know, I would venture it was like 5, 6,7.
- Q. All right. So, somewhere between 5 or 7 maybe?
- A. Yea.
- Q. And when that happened what did you do?
- A. I turned around to my left, and I looked back a little
bit over my shoulder and I saw a small car and I saw
it's driver slumped over the wheel.
- Q. All right. Was the window open on the driver's side?
- A. It looked like it was open, yes.
- Q. Was the driver a white man, a black man?
- A. I didn't see his face but I saw his head which looked
brown, I think.
- Q. His hair?
- A. Yea.
- Q. And he slumped onto the wheel?
- A. Right.
- Q. Did your girlfriend say anything to you?
- A. No.
- Q. Did you say anything to your girlfriend?
- A. No.
- Q. What did you do when you heard the shots and you saw him
slumped? What did you do next?
- A. I think I froze for a moment, and then I started to run.
And the people in front of me also ran and I followed
them.

- Q. When you looked at the car was there anybody in between you and the car?
- A. No, not at the moment that I looked.
- Q. Was there any vehicle that passed in your path?
- A. Not that I recall.
- Q. So it was just a clear vision when you looked?
- A. Yes.
- Q. You saw the man slumped, you froze, and then you snapped out of it and then you looked ahead. And the couple that was in front of you were running and you followed them?
- A. Yes.
- Q. And what happened next?
- A. Well, we ran behind the trucks and we all huddled there for a minute, and then the couple started into the parking lot towards the cars... Actually before that we were first behind the trucks and then we moved out along the railing at the parking lot, the 4 of us. And then the couple broke away, then they ran into the parking lot towards the cars. I followed but my friend stayed behind. And I just aimed for a car, there was a driver there, and I aimed for him.
- Q. All right. From the time you first heard the volley of shots that you refer to, after that did you ever hear another series of shots?
- A. Yes.
- Q. How long after the first volley did you hear the second volley?
- A. The second volley started just as we made for the trucks. Yea, I think I heard them before we even actually got behind the trucks.
- Q. Did you look then to see where it was coming from?
- A. I was afraid to look.
- Q. I realize that you were afraid.
- A. So, I didn't. Yes, I have to say that I didn't see anything.
- Q. At any point did you see a green car?
- A. No.
- Q. And after you went in the parking lot eventually at some point you met the police officers?

A. Well, we ran into some businessmen who were going in the restaurant and told them what happened and they said, "Maybe you should go back and report it to the police." So, they escorted us back.

Q. To the scene?

A. To the scene.

Q. And you met the police officers there?

A. Right.

Q. Did you see anything at the scene?

A. Yea, we saw one of the men on the ground.

Q. Was that the man you saw behind the wheel of the car?

A.

Q. You couldn't tell. All right. I think that's good.
Thank you.

 present during the interview and accompanying the Special
 Agents were Detective Sergeant [redacted] and

b6

[redacted] This interview took place at approximately
 1:15 AM at [redacted] residence. [redacted] advised that he
 and [redacted] were on Northern Avenue in Boston
 earlier that evening (actually meaning the evening of May 11,
 1982), at approximately 6:00 P.M. They were driving in their
 automobile having come from a marina in the area where
 [redacted] has a boat. He remembers getting off his boat at
 approximately 5:45 P.M. and arriving on Northern Avenue
 at approximately 6:00 P.M. He recalls hearing what sounded
 like two gun shots. He stopped his car and turned it
 around in the vicinity of The Pier Restaurant. He saw
 a large white male get out of the passenger's side of a car
 that appeared to be right up against the back of another
 car. The individual appeared as though he was trying to
 escape. He then saw a white male get out of a 1972 or 1973
 dark faded green Impala, which was kind of clean without any
 dents, and shoot this person nine times. [redacted] commented that
 the shooter remained calm through the entire matter and stood
 over the victim who was on the ground "flopping like a flounder".
 He recalls this individual then getting in the car and driving
 off at a high rate of speed in an easterly direction on
 Northern Avenue. Another car followed behind the car with the
 shooter in it. It was a newer black car like a Cadillac
 with the flat back. It was a four door and may have had two
 people in it; however, he recalls only one person at the wheel
 dressed in a businessman's attire and of middle age. He
 recalls two individuals being in the green Chevrolet which
 he called the shooter's car.

b6
b7C

[redacted] also recalls a white male with a red beard,
 clean cut individual who "bolted" on foot running after the
 shooting. He does not know if this individual was with the
 shooters or was just scared.

[] recalls that the white male who did the shooting "nine times", got out of the passenger's side of the Chevrolet. He would describe him as a white male, clean cut, approximately 25 years of age, approximately 5'7" in height with dark brown hair which was curly but not too curly.

[] recalled the time of the shooting because he looked at his watch as it occurred.

b6
b7C

[] also recalls the shooter as wearing what appeared to be clean blue colored dungarees.

[] did not observe the license plates on either of the shooters car or the one that followed it out.

The interview was terminated at this time due to the lateness of the hour and [] agreed to accompany Special Agents and Boston Police Detectives to the scene of the crime on the morning of May 12, 1982 in an attempt to re-enact what had occurred and what they had observed.

Q. You were driving the car, right?
A. Yes.
Q. Did you arrive at the scene of the shooting sometime around what?

b6
b7C

b6
b7C

- A. 6:00 o'clock.
- Q. About 6:00?
- A. 6:00 o'clock I turned in the street you have on the piece of paper. I heard noise and then I just turned around cause I didn't know where I was going. I was trying to get out.
- Q. But were you on Northern Avenue?
- A. Yea, I was coming down Northern Avenue and there's a side street.
- Q. In the direction of where?
- A. You have it on the paper there. I don't know the name of the side street.
- Q. You see they came down this street, which really isn't the name of a street, which attaches to Congress. It goes through a dirt road and then goes up to Congress.
- A. There's a detour. It's off of -
- Q. Well, which street is the yacht club on?
- A.There's a street after Summer Street's here. It's the next street right here, the yacht club is. You can't go all the way down, so it's a detour. I think it's still Northern Avenue the yacht club's on.
- Q. Do you know where Summer Street is?
- A. Yes, Summer Street -
- Q. Do you know where Northern Avenue is?
- A. Yea, it's the next street over.
- Q. Yes, Northern Avenue is nearest the water, right along the docks.
- A. That's the street the yacht club is on. You can't go straight down they're fixing the bridge or something.
- Q. That's right.
- A. You see we went through a detour, through a dirt road.
- Q. But, I mean this incident took place on Northern Avenue?
- A. Still Northern Avenue, right there there's construction going on.
- Q. Near the water and everything else?
- A. Yep.

- Q. O.K. That's what we're interested in.
- A. The side street. All I did is I heard noise, but I was hoping the side street took me up by the expressway,the next street up. I didn't know really where I was going.
- Q. O.K.
- A. When I heard noise I stopped and turned around, and when I seen what happened I didn't want to go up there because there was all trucks and stuff. I stopped, froze more or less, saw what happened.
- Q. When you said you heard a noise, what kind of noise? Can you describe the noise? What did it sound like?
- A. It wasn't a steady automatic gun, it was done by hand. And there was 2, I saw -
- Q. It was a gunshot wasn't it?
- A. Yea, there was a whole bunch of them.
- Q. O.K. A whole bunch of them. Do you recall how many?
- A. I heard 2 the first.
- Q. The first time, and then a pause and then more?
- A. No, I heard 2 shots, 2 noises. I didn't even know it was a gun at the time. That's when I turned my head and said, "Oh, shit." Right. I looked around and the guy was hopping out of the car at the time. And as I was turning I stopped and another guy come out of the car. I didn't see the first shot though, I just heard it. But the one the guy gave him 9 shots, whatever he had, it sounded like more.
- Q. O.K. So -
- A. It sounded like 2 different, 2 things at once.
- Q. The first thing that got your attention is you heard 2 shots, right?
- A. Yes.
- Q. Did you look towards the car or anything?
- A. I turned my head and saw something over there
- Q. What did you see? Did you see a vehicle, a motor vehicle?
- A. Yea.
- Q. What kind of a motor vehicle did you see?
- A. It was a green, I don't know if it's between a Chevy

a Buick. It's a GM, Buick, Oldsmobile, or Chevy they all make.

Q. O.K. Did you see another car there, more than one car?

A. I saw a Toyota, that's the blue Toyota I drove up by.

Q. Did you see anyone get out of either those 2 vehicles?

A. I saw the guy get out of the blue Toyota.....

Q. Was he on the driver's side or the passenger's side?

A. Passenger's side.

Q. He got out of the car on the passenger's side, then what did he do?

A. He started running in back of the car.

Q. This is after the 2 shots?

A. After the 2 shots, I'm just turning around during the 2 shots and what's happening. Cause I looked up there, I didn't know what was happening. I was just driving the car and I didn't see nothing until I was like bending in this way. And I didn't know where I was going. I saw 2 shots and instantly I just turned around, and then I seen this guy get out. I didn't know the other guy was shot. I didn't see no broken windows or nothing.

Q. What did you see the guy get out of the car do first?

A. He got out of the car and he folded over, and then he was on the ground like he was staggering drunk.

Q. Yes.

A. But it was so quick when it happened. I didn't even know what was happening til after I started seeing red dots in his white pants he had. That's when I know he looked at the guy shooting him. He saw the guy shooting him.

Q. Did the assailant get out of the car and shoot him or was he still in the car when he was shooting?

A. No, he got out of the car. He got out of the passenger's side.

Q. Yes.

A. But there was another one on the driver's side. My girlfriend knows about that one.

Q. But the fellow got out of the blue car?

A. No, got out of the green car. The guy in the blue car was folded over at the time I saw him.

Q. Did he have a weapon in his hand?

A. Yes.

Q. O.K. And then what did he do when he got out with the weapon in his hand? Did he start firing again or what?

A. He just started shooting him, he continued -

Q. Was the victim standing up or down?

A. The guy got out of the car, he went to run. As soon as he got out he was shot and he fell to the ground. That's when I started realizing there was a shooting going on. And he was just standing there steady, just standing there. He must have shot about 20 of them, that's what it sounded like. It was pop, pop, pop, pop, pop. You know what I mean. It wasn't -

Q. Now the man with the gun what did he do? Did he get back into the green car?

A. He got in his car. The passenger's door was open on the green car, but then it looked like the guy, the passenger was shooting him. But it looked like for some reason he went over there but I was lost. My girlfriend said they slid over and pulled the other door in.

Q. O.K.

A. I don't know why he went around.

Q. Tell me, can you describe the man that got out of the green car? The one with the gun.

A. The only thing I know, he looked like me.

Q. He's a white man, right? No doubt about it?

A. White man. He's about, maybe he's a hair heavier than me.

Q. How tall are you?

A. 5' 7", 5' 6".

Q. How tall was this fellow?

A. Same size.

Q. About the same size.

A. He had my hair, but straighter, wavier I'd say.

Q. How about the build? What type of build did he have?

A. He didn't have that much of a build, just maybe 10 more pounds than I am. He was about 25. I'd say he was around 25 years old.

Q. Anything on his face?

A. Nope. I didn't see no moustache or nothing. I really

didn't even see his eye brows. But I could see if he had a beard. He didn't have no beard.

Q. Did you see his hair?

A. What?

Q. Did you see his hair?

A. All I could see was dark colored hair, not black black but it was more or less brown or auburn.

Q. Did you notice any of his clothing?

A. He had dark pants on. That's all I could say. I don't know what shirt he had on, I think it was dungaree blue. That's all I could -

Q. Was he well dressed with a shirt and tie or was he casual?

A. The guy that was shooting was casual.

Q. When you say casual, you mean a jacket?

A. Would be like I got now.

Q. Like you are?

A. Yes.

Q. You have blue denims on and a blue sweater.

A. Yea. But I know he had dark clothes on at the time cause I would have seen a white shirt. I didn't see no white but I seen a dark.....pants. Don't forget I've got kids in the car, I'm driving and at the same time hoping I'm not going to get shot. When that was happening this car pulled up beside me, a black El Toura. I'd say it was an LTD or maybe a new Cadillac.....pulled up in front of me. You see I could have left when it was happening, but I didn't know cause one guy came running across me. Maybe he was just in the way and said, "I'm gettin out of here" or he had something to do with it. I don't know..... But he came flying across my car, so I wasn't about to really take off and hit noone or something. You know something could have happened in that split second, so I froze and [redacted] down in the back.

Q. Tell me -

A. And this black car pulled up in front of me, he stopped. Now I said I wasn't going to chase him,

b6
b7C

right. Not to do anything, but hope I hear a cop beeping and point over.

Q. Do you think he had anything to do with it?

A. I think now that I realize that car. As soon as that car went off that black car took off. I think maybe he was waiting to see if something happened behind cause he come and stopped while this guy was running back in his car. As soon as that car took off this black car went right behind him. And I said, "Well, there's another guy chasing him." He was so gone I didn't see him. I just saw the first policeman stop him. So, now I really think that black car had something to do, a getaway car.....

Q. What kind of a car was it, do you know?

A. I'd say it's a black 1981 or 2. It was a new car, no dents on it, a four-door. I think it had a piece of chrome or something in the front.

Q. How many people were in the car?

A. One guy.

Q. One guy, the operator.

A. And he was an older guy.

Q. An older guy.

A. And he had lighter hair.

Q. Tell me when you first viewed the fellow getting out of the green car and shooting the victim when he got out of the blue car, how far away were you, roughly?

A. From here, well say I'm in that corner the car was like maybe a little, maybe this much more from that wall. Across the street, how big is this street. From here to here, say, and I was a little back.

Q. The street's probably about 35 feet wide, oh no, that's much wider, maybe 40.

A. Well, it would be a street plus a little alleyway.
I was -

Q. O.K. But you had a pretty good view of them, and it was daylight out.

A. It was daylight.

Q. Anything else,

A. I can't think of anything.

A. But I was worried about that. I said, "The poor man in the black car. Should I follow him?" My car's loud anyway, you know. I was scared. I said, "Maybe I shouldn't get into it."

Q. That's all right.

Q. As far as these cars were positioned, when you were over here this is the Toyota. Are you calling it a Toyota or a Datsun?

A. I call it a Toyota.

Q. O.K. And it was a blue color?

A. Yea, like a, more or less a faded blue. We'll say a

Q. A metallic blue?

A. Yea, it looked like the car was maybe an old one, 71 or something.

Q. O.K. And this green car was positioned right behind it?

A. This is what I say, this car was more. She says it, that's my girlfriend's drawing.

Q. O.K. go ahead.

A. I would say this car was right here, I wouldn't say it was that far out cause the bridge was up here

Q. How far in feet would it be behind this car?

A. I thought the car was this way but it wasn't cause you can tell how he hit into the fender.
I told them that, it's wrong. It was this way, but I really didn't notice it. But I would say it wasn't as crooked, it was more like this way, you know.
I couldn't see it sticking way out like that.

Q. So, when you pulled up here you heard a couple of shots or noises.

A. I was here, a guy come out of here.

Q.. You looked over here?

A. Yea the guy -

Q. Did you see him getting out of the car?

A. Yea, I seen him -

Q. You looked in that direction cause that's where you heard the noise?

A. Yea, I heard the noise. I seen this guy getting out

b6
b7C

If I'm right he was leaning right here where he got him.

Q. He got out running and he ran towards the back of the car?

A. He was laying right between here.

Q. Now as he was getting out did you see anybody else in this car?

A. I saw a guy folded over.

Q. Folded over.

A. I didn't see him get shot though, that's the guy there.

Q. Was it the operator?

A. Yea.

Q. O.K. So he runs back towards the back of the car, right?

A. Yea, I think he was trying to get away.

Q. Now what activity is happening in this green car?

A. This door was open at the time.

Q. It was open at the time?

A. Yea, the passenger's side door.

Q. Was someone outside of it or inside?

A. This guy was like this.

Q. Out of it.

A. That's why I'm saying the car was in more cause it's -

Q. Was he outside?

A. only this big the way he has it set up.

Q. O.K.

A. This car was here and this one was closer.

Q. O.K.This guy is getting out of the car.

A. Right.

Q. All right now -

Q. Mention the victim's car and the assailant's car so we will know when we take the tape.

Q. O.K.

A. This is the Toyota.

Q. The victim's -

Q. That's the victim's car.

Q. The victim's car.

Q. Yes.

Q. O.K. The guy that got shot is getting out of the victim's car and he's running back to the assailant's car.

A. I think he was trying to either go after the guy or something. I can't see here cause I didn't have the view over this end of the car.

Q. Right.

A. But I seen this guy somehow he did something quick, just do a.....But I don't think he went in there, I think he went in this side or something.

Q. All right, but let's take it -

A. But I did not see him enter this side of the door, that door was open.

Q. Let's take it step by step. When the victim was getting out of his vehicle from the passenger's side of the door and going back towards the assailant's car, this door was open.

A. That door was open.

Q. And the assailant was already outside of the car?

A. Yea, he was more or less, I think he popped in and he drove away or something.

Q. Well, wait a sec. Now I'm trying to get from your point of view where the assailant was when the victim got out of the car. Was he inside his car or outside of his car?

A. He was outside shooting him. This time he's outside, he's out of the car shooting him.

Q. By the time the victim got out and was running back that way?

A. Yea, because this guy boogied over here.

Q. And the door was open?

A. It was open. Now that's when I seen the door shut that's how I know.

Q. As the victim runs back to the assailant's car the assailant starts shooting him again? Is that what happened? Is that what you're saying?

A. The way I see it. The guy came out of this door here, left his door open. Maybe he was going to pop in. This guy here drove away cause he didn't go back in this door, but this door's shut. There are 2 people in that car. I would have seen him. I know he came

out of there.

Q. O.K.

A. I seen him. I think -

Q. Is it my understanding that when you first heard the 2 shots.-

A. Its probably the other guy -

Q. afterwards the victim got out of the blue car?

A. After, yea.

Q. The passenger's side guy got out. The green car was right behind it, and the passenger's side of the green car the guy came out. And then did he start shooting at this fellow on the ground at this time?

A. Yea, as soon as he started running he popped out and shot at him.

Q. O.K. Was he standing up or down on the ground at the time of the shooting?

A. Up.

Q. He was standing up, then he fell down on the ground.

A. Oh, at the guy shooting, yea. He was standing up, he was trying to get away, he's past his car.

Q. O.K. Did you see a weapon?

A. I can't say what kind of a weapon. I seen something he was using, it had to be a gun, you know. The guy -

Q. Long gun. Was it a short gun, long gun?

A. I would say it's not that big. But I know he had it up in the air though.

Q. A hand gun? Like a hand gun?

A. No, cause he would have had it something like this.

Q. Was it more like a rifle or a hand gun?

A. Like a sawed off 30-30 or something, 25 caliber.

Q. You didn't see the gun.....?

A. I really didn't see the gun, but it wasn't no pistol. I didn't see him do none of this stuff. It had to be on his left side doing something. You know what I mean?

Q. O.K. Anything else, we've forgot? Is there anything else that you can think of right now that might help us other than what you just told us.

A. No, the only thing I can probably help you with is probably at the time this guy here was closer to here.

b6
b7C

This guy -

Q. You're speaking of the green car here?

A. Yea. The guy that was driving at first probably gave this man, this driver, the first shot. I would say it because there was 2 shootings, right.

Q. Did you see this happen?

A. I heard the noise, but this car stopped the door.
When I -

Q. You feel as if it could have come out the driver's side -

A. Yea.

Q. when you first heard the 2 shots?

A. When I first cause he was falling. It looked like -

Q. You didnt' see anything.....-

A. What the set up was it looked like this, bang he got him. This other guy pops up to get this guy here but he swung and he took off. This guy, the last guy, I could only swear this guy came out of here, took off in the car.

Q. O.K. So, this guy after he was done shooting jumped back into the car?

A. It was so quick I know he had to jump, and maybe he hopped over the guy's lap or something. I don't know why even he didn't come in this end. I don't know why.

Q. What direction did the vehicle go in after -

A. He just went, not this street but the next street -

Q. What, he just drove off?

A. He skidded off, like he popped in. This door's shut but the guy did (?) in that side of the car.

Q. O.K.

A.For all I know he probably hopped in the back seat or something. I don't know maybe he, there was a driver. But I did not see him get into this side of the door. He came out of this door though.

Q. All right. So what did the guy -

A. That part I -

Q. Just what you saw. Go ahead.

A. I seen this door was open and this guy came out. This is the man who came out to shoot him.

Q. All right.

A. I did not see him go in here. He had to come around here, either popped or jumped into the back seat and was gone.

Q. O.K.

Q. So what direction did the car go in after?

A.I would say this car was just a like this. Went just like this past this street and went up the next one. Like at the same time this guy who was in front of me he followed him. That's the direction the car went.

Q. O.K. Take a rest for a minute.

On May 12, 1982 an interview of [] date of birth [] was conducted at Boston Police Department Headquarters, Berkeley Street, Boston, Massachusetts, by Sergeant Detective [] Detective [] and Special Agent []

b6
b7C

[] was a witness to the shooting of Edward Brian Halloran and Michael Donahue on May 11, 1982 on Northern Avenue, at the waterfront in Boston, Massachusetts. [] resides at [] Massachusetts with his parents, telephone number [] However he is often at his girlfriend's residence, [] Massachusetts, telephone number []

[] related the following regarding the evening of May 11, 1982:

He was just out for a ride with [] and her [] ages [] in his vehicle, a 1973 [] Massachusetts license [] They were in the area of the Boston Tea Party Ship on Congress Street and headed southeast on Congress Street. They reached the end of Congress Street, cut over on a dirt road to Northern Avenue.

[] was confused and in trying to get out of that area, he made a couple of turns and ended up on a small street facing the water and stopped his car. It was about 6:00 P.M. when suddenly he heard a noise which he later figured were gunshots, but at the time they were cracking sounds. He then looked in the direction of the noise.

b6
b7C

At approximately the same time, a black car pulled in front of him (facing east on Northern Avenue) and stopped, blocking [] from going anywhere. He isn't sure whether or not this was done intentionally. He believed this automobile was either a 1981 or 1982 black LTD or Cadillac. There was only one person in the car, the driver who was an older male with light colored hair (no further description).

After [] looked in the direction of the noise, he saw two cars across the street. A blue Toyota and a green Chevrolet. He saw a man come out of the passenger's side of the Toyota bent over and staggered towards the back of the car he was in. At the same time, he noticed the passenger door of the green Chevrolet open and a man standing next to it. Suddenly, the man outside the Chevrolet started shooting at the person who had staggered to the rear of the Toyota.

b6
b7C

[] figured he was shooting because this man pointed something and a type of "putt-putt" sound could be heard, followed by puffs of smoke. The man was on the ground and bleeding. [] thought it was several successive shots, more than 12, maybe 19 or so. [] described the male standing next to the Chevrolet as a male, white, approximately 5'7", 165 pounds, dressed in dark pants, possibly dungarees, medium brown color hair, not long but somewhat wavy. He could not give any further description.

After the shots had stopped the man next to the Chevrolet jumped back into the car but not on the passenger's side. It seemed somehow he went over to the other side of the car and got in on the driver's side. [] believed it was a two door Chevrolet, 1970-1973 model, maybe even an Oldsmobile in relatively decent condition, not beat up. [] never got a look at the driver of the Chevrolet.

b6
b7C

The Chevrolet then sped off down Northern Avenue towards "Jimmy's Harborside". [] stated the black Oldsmobile then took off behind the Chevrolet and appeared to be following it.

[] then decided to try to follow both vehicles and attempt to locate a police officer. The cars went in the direction of Commonwealth Pier and [] lost them. He proceeded down Summer Street to Broadway and found a police officer and told him what had happened.

On May 11, 1982, he had driven to the No Name Restaurant off Northern Avenue in South Boston to join his family for dinner. After dinner, at approximately 6:00 P.M., he got in his automobile, a black [redacted] and proceeded west from the No Name Restaurant on Northern Avenue. He was alone in his car.

As he was passing Pier Five (5), he observed a small blue foreign car coming diagonally across the street from his left. He believed the blue foreign car was a Datsun. The Datsun was travelling approximately three (3) miles per hour; the driver appeared slumped over the steering wheel. The Datsun struck a parked car on the right side (North side) of Northern Avenue.

[redacted] thought the driver was drunk and he slowed and veered toward the Datsun to render assistance. As his vehicle approached the Datsun, [redacted] observed the passenger side window was completely broken and saw the passenger emerge. The passenger's face was bloody and blood was spurting from one of his arms. The passenger, whom [redacted] described as a fat, white male, approximately forty (40) years old, six (6) feet tall, about 250 pounds, approached his car within ten (10) to twelve (12) feet at a position behind and slightly past the Datsun. [redacted] observed that the rear hatch back window of the Datsun was blown out.

b6

[redacted] then heard from his left a man shout, "We'll get you", or "We'll show you", or "I'll get you", followed by a rapid succession of several loud gunshots. He estimated at least ten (10) shots were fired from somewhere to his immediate left. [redacted] ducked down in his car and accelerated west on Northern Avenue. He does not recall looking back and he continued west to a bridge where he saw two police officers and reported the shooting to them.

[] advised that he does not remember seeing any car to his left or in the vicinity of the Datsun from which any shots were fired. He did not look to his left when he heard the voice shout, "We'll get you", nor when he heard the shots fired. He did not hear any shots prior to seeing the blue Datsun veer across Northern Avenue from the left side and had no realization of what was happening until he was very close to the Datsun, saw the damage to that car, the injuries of the passenger and heard the shout followed by a volley of shots.

[redacted] Iowa, telephone number [redacted] and [redacted] telephonically contacted SA [redacted] at the Boston Office of the FBI from a pay phone in New York. [redacted] advised that he is a truck driver of a rig leased to [redacted] Iowa, and periodically drives to Boston to purchase seafood. [redacted] furnished the following information:

b6
b7C

On Tuesday, May 11, 1982, at about 6:00 P.M., he was standing behind his truck which was parked parallel to the street a few feet east of the Port Cafe on Northern Avenue, Boston, Massachusetts, between the Port Cafe and Commonwealth Pier. The truck was parked on the north side of the street, i.e., the side where the Port Cafe is located. [redacted] was there to pick up a load of seafood at Crocker and Winsor and had just returned to his truck from a pay phone across the street.

[redacted] heard 3 or 4 loud shots - they sounded like shotgun shots, but [redacted] admittedly is not familiar with guns and their particular sounds. He stepped from behind his truck and just as he did so he observed what appeared to be a dark gray or green Toyota coasting slowly across the street toward his truck, finally bumping into the rear of a yellow car parked in front of [redacted] truck. The driver of the Toyota was slumped behind the wheel back toward the post. The Toyota stopped at an angle to the front of [redacted] truck.

b6
b7C

As the Toyota was coasting up to the back of the yellow car, just before bumping into it, [redacted] noticed a man outside the driver's side of the Toyota running toward the curb near the Port Cafe. As he was doing so, [redacted] observed a dark green 1977-1978 Chevelle pull up some 15 feet behind and to the passenger side of the Toyota, and he also observed two gun barrels sticking out the rear left side of the Chevelle. There was a series of numerous shots as it appeared the two guns were firing into the back window of the Toyota. The man who had been fleeing toward the Port Cafe was literally mowed down with his back to the Chevelle and fell face down in the street. [redacted] ran for cover behind his truck and as he did so, the dark green Chevelle sped down the street toward the No Name Restaurant and made a right turn at the corner by the Shawmut Bank.

[] did not observe any car follow the Chevelle away except for an older green Ford Granada with a hanging muffler that went in the same direction at a moderate rate of speed. The Ford appeared to contain a family and would not have appeared to have been involved in the shooting. [] was unable to see the license tag of the green Chevelle.

[] observed two men in the back seat of the Chevelle when the second volley of shots was occurring, as both gun barrels appeared to be protruding from the rear on the driver's side. However, he was unable to see the two men in the back seat well enough to describe them beyond them being only figures. As the Chevelle went by [] when it was fleeing, he observed only a driver and no one in the rear seat. The driver was slouched down or was very short, had dark hair, dark skin or complexion and in [] recollection, appeared to be foreign looking.

b6
b7C

[] estimates that he was 80 - 90 feet from the Toyota. He did not observe anyone get out of the Chevelle. Of the two gun barrels, one of them was a long barrel. Also, he recalls the right window (passenger window) falling out of the Toyota.

[] recalls that after the shooting, a guard at Commonwealth Pier who comes on duty at 4:00 P.M. said that he had heard the two victims of the shooting had been together earlier at The Pier Restaurant across the street from the Port Cafe.

- Q. You're [redacted] as in [redacted] Is that correct?
- A. That's right.
- Q. And your address is [redacted] in [redacted] New York.
- A. Right.
- Q. Prior to putting on the tape I went over the story of an incident that you observed earlier this evening. Is that correct?
- A. That is correct.
- Q. All right. We decided that you had left the Aquarium sometime around quarter of 5:00?
- A. I'd say it was right around quarter of 5:00, yea.
- Q. P.M. And you and the wife walked down Atlantic Avenue up Northern Avenue to the No Name Restaurant?
- A. That is correct.
- Q. O.K. So we assume that it took you somewhere around a half an hour to travel that distance?
- A. Half an hour, perhaps a little more because I stopped to ask directions.
- Q. So we figured it was quarter past 5:00, 20 past 5:00, somewhere in that area that you arrived at the No Name Restaurant?
- A. That is correct.
- Q. And that you had no waiting period before you ate -
- A. Right.
- Q. you and your wife? And that you left there somewhere around a half an hour?
- A. I'd say around a half an hour to 40 minutes the most.
- Q. So we're going to put ourselves somewhere between 10 minutes of 6:00, 6:00 o'clock, somewhere around there?
- A. Right.
- Q. And you walked out of the pier that the restaurant's on -
- A. Right.

- Q. and took a right-hand turn on Northern Avenue?
- A. That is correct.
- Q. Now you started walking towards intown Boston?
- A. Right.
- Q. At some point you felt that there was 2 girls behind you that were traveling in the same direction as you were?
- A. Actually they were in front of us. A little ways up the street they were in front of us. They were going a little slower than we were and we passed them.
- Q. All right.
- A. A little ways up the street.
- Q. All right. Now as you passed them, sometime after you passed them something happened?
- A. Well, we passed them and I remember getting off the sidewalk onto the road a little ways. We were avoiding some puddles and that kind of a thing. We had passed them. We were walking up the street, and a little ways up on the right there were some trucks jutting out into the street and we had veered to go behind them. And now we are out into the street a little bit, there's no side -. We weren't out on the sidewalk at the time, we were out into the street a little bit.
- Q. All right. And did something draw your attention to the street side?
- A. Yes. Well, we were right at the very last truck on the end, we were still continuing walking towards the main part of the city, walking up the street on the right-hand side, and I heard a very rapid succession of what I thought were fireworks going on. They were very short ping, ping, ping, ping, ping, like that. And I thought it was some kid lighting off fire-crackers in the street. And I know that I turned and I believe the people behind me turned to look, and directly behind to my left and behind me slightly was a small blue vehicle with a guy that was sitting in the driver's seat his head slumped over onto the door. And I believe right at that time it just

connected in my mind that those must have been shots. And at the same time I saw a green vehicle that was on the other side of the car pulling forward, and I grabbed my wife and we started to proceed around to the back of this truck. Because I said, I think we both said at the same time, "These are shots. Somebody just got shot." And we are both I think screaming at the time, and we proceeded around towards the front end of the truck which is facing into the building. And I'm turning around looking, seeing what's going on, and I see this green vehicle pulling and I touched the front of the vehicle, and the driver of the vehicle pulling around, making a U-turn around this blue car. And now it would be heading in the same direction it is, yea. And we're very scared.

Q. Let me interject for a second. He came around, he was facing in the opposite direction of the blue car -

A. That's correct.

Q. the man in the green car?

A. The blue car.

Q. He made a U-turn?

A. Right.

Q. And he came back. So, how when he made the U-turn he was coming in the same direction as the blue car was facing?

A. That is correct.

Q. Pointed, right?

A. They were both in opposite directions to begin with when I first saw them. The blue car facing towards the restaurant which we just came from which was the No Name Restaurant, and the green car was facing initially when I first saw it towards the main part of the city, in the same direction that we were walking. Then it had made the U-turn after those, now what I assume were shots after it made those shots, and it was now making a U-turn around the backend of that blue car. And I saw the front of the car and I saw the driver, and we were very frightened at the time. We believed that the driver was coming after us.

Q. What did this driver look like that you saw?

A. The driver of the green car?

Q. Yes.

A. The driver of the green car.

Q. Right.

A. The driver of the green car, I thought he was very dark, very dark complexioned. I don't know if he was black but he was very dark complexioned. If he was black he wasn't very black, he was just a very dark complexioned gentleman. He seemed to have very unkempt type of hair, it seemed to be kind of kinky. It wasn't very straight and combed. It just seemed to be kind of unkempt and bushing out on the top of his head. That's what I saw.

Q. Have you seen guys with perms?

A. Oh, sure.

Q. Was it like a perm that was loose?

A. It was kind of loose, yes. It was loose. It wasn't like a tight Afro type of situation. It wasn't nicely trimmed. At least that's what I saw. It seemed to be kind of unkempt.

Q. O.K.

A. But it seemed to be a kinky kind of thing. At that point my wife and I -

Q. Well, let's stay with him.

A. O.K.

Q. Did you draw an opinion of his age bracket?

A. Yea, he wasn't young, like 18. And he wasn't an older guy. I'd say he was between 25 to 35, maybe 40 at the most, from what I could tell just from that distance.

Q. All right. Did he appear to be big in the car?

A. He didn't tend to be a very tall gentleman from what I could see, of course he was rounding the corner. From what I could see I couldn't see above, perhaps his upper shoulder and head from the door level of the car. In other words he didn't seem to be an extremely tall man where his head was touching the ceiling of the car. That didn't seem to be the case with me.

Q. And he wasn't extremely short so that he was looking through the steering wheel?

- A. No, he didn't seem to be extremely short either.
- Q. All right. Was his window open?
- A. Yes, definitely his window was open.
- Q. How about the window of the blue car, was that open?
- A. Yes, that was definitely open.
- Q. How could you tell?
- A. Because the guy's head was hanging out of it.
- Q. O.K. And when you were looking at the guy in the green car, now he was closer to you than the guy in the blue car was?
- A. At the point where he turned the corner and came back, yes, he was closer at that point.
- Q. All right. So you and your wife [] were running, then you ran down beside the truck that was at the end of the building?
- A. That's right. We thought, I honestly thought that this guy was coming after us after I heard shots. Because it was in my mind that I'm a witness to this. I thought he was coming so we hid behind. We initially took a pause in the front bumper of that big truck that was sitting there, and that's when I saw him turn and I was looking at him and I saw him turn the corner, etc. Then we proceeded to run into, from there we both ran into the parking lot of the restaurant there, Anthony's. And we were running into the middle of the cars that were parked in there a little ways in. We were looking to see what cars were coming in all the time, and there were cars coming in.
- Q. Did you hear some noise?
- A. Well, yea, right as we were crossing across there. getting into there I heard a second round of these, which I know at the time now, shots. And I heard the whole thing all over again, and at that point I got very, very, and my wife and I we started running very, very fast towards the restaurant.
- Q. All right. Were the first volleys that you heard longer or shorter than the second volleys.
- A. I thought that they were approximately the same.
- Q. Both the same?

b6
b7C

A. Yes.

Q. How many times do you think you heard? The first time it appeared to be a firecracker and the second time you realized that they were shots. How many shots do you think went off?

A. I believe between 5 and 7 at each time.

Q. O.K. And you and your wife both eventually ran into the restaurant?

A. That is correct.

Q. And you eventually met the police officers?

A. Right, right there at the front of the restaurant.

Q. All right. And they took you here to District 11?

A. Right.

Q. O.K. Thank you very much sir.

area of Boston? A. The No Name Restaurant.
- Q. The No Name Restaurant? A. Yes.
- Q. Who was with you at this time? A. My husband.
- Q. His name? A. [redacted]
- Q. At this time, [redacted] were you walking or riding? A. We were walking
- Q. From where? A. From the No Name Restaurant toward the city to get
our car.
- Q. Do you live in this City in Boston? A. No. We were on vacation,
camping.
- Q. As you were walking, do you know which side of the street you were on?

b6
b7C

b6
b7C

A. Toward the City.

Q. Were you on the same side as the No Name Restaurant? A. Yes.

Q. In other words, you were going toward Jimmy's Harborside? Do you know where that is? A. No I don't. I am not familiar with the area.

Q. So you were going from the No Name toward the City on the same side as the No Name Restaurant? A. Right.

Q. That would be on Northern Avenue? We know it as Northern Avenue? I am sure you don't know the name of the street? What did you see at this time? Did you have occasion to see something take place?

A. Yes we did. We heard shots. First I thought it was a car backfiring. Then it sounded like firecrackers. We turned around and saw a man slumped over a steering wheel.

Q. Excuse me for interrupting you Could you talk a little slower because somebody is going to have to type this? You heard shots?

b6
b7c

A. Yes I did.

Q. Do you remember how many? A. No I don't. There were quite a few.

Q. Quite a few? O.K. And you thought it was firecrackers? A. Yes.

Q. When you heard these shots, which way did you look? A. I looked across the street, directly across the street.

Q. From where you were walking? A. Right.

Q. What did you see then? A. I saw a man slumped over a steering wheel in a car. Then I realized that it wasn't firecrackers. It was bullets.

Q. You saw the driver? A. I saw two drivers. I saw a driver slumped over a steering wheel, and I saw a driver in a car behind him.

Q. The man who was slumped over the wheel do you know what he was wearing?

A. No I don't.

Q. Do you know if there was anybody else in the automobile with him?

A. I didn't see anybody else.

Q. Do you know what type car it was? A. It was a small car. I don't

A. really remember too much about it.

Q. Was it a foreign? A. I couldn't say for sure, a small economy car.

Q. So when you heard the shots, you looked over and saw the operator of one car slumped over? A. Right.

Q. Do you know which way this car was heading? A. Heading toward the No Names Restaurant.

Q. In other words, it was like parallel to the street the curbing? A. Right.

Q. Now the other car, who did you see in the other car? A. I saw a man in the other car. It was behind, further away from me. I saw a man. I looked at him. He had dark hair. I can't say that it was closely cropped, but it wasn't long hair, and he looked like he was in his early 30's, the mid 30's. He didn't look like an older man, and he didn't look real young either.

Q. Was he operating this car A. He was behind the steering wheel.

b6
b7C

Q. Do you know what kind of a car that was? A. It was a larger car. It looked dark green. I would say it was an older car. It didn't look new.

Q. That was heading in the same direction as the other car? A. Right.

Q. Was there anyone else in this car? A. I didn't see anybody else.

Q. Did you see anybody in the back seat? A. No.

Q. All you saw was the operator? A. Right.

Q. You heard the shots? You looked over? You saw the man slumped over the wheel? A. Right.

Q. You saw this other car, an old dark green car going the same way? A. Right.

Q. Toward the No Name Restaurant? Then what did you see? A. That is when we turned and started running toward the cars that were parked. We heard more shots so we tried to hide behind the front of the truck that was parked there. Then when the shots kind of stopped we started running into the parked cars and was hiding behind those.

- Q. Now you say - Was this other car, the one behind the car that was parked with the man slumped over the wheel was that car moving or was it parked? A. No. It was stationary when I saw it.
- Q. Was it alongside the other car or was it behind the car? A. It was a little bit behind but to the side; it wasn't directly behind but a little bit to the side.
- Q. Then you said you saw it heading toward the No Name Restaurant? Is that correct? A. I didn't actually see the car moving.
- Q. But it was headed in that direction? A. Facing that direction. Yea.
- Q. Then you heard more shots? A. Right. There were two sets of shots.
- Q. Then you and your husband, [] proceeded to hide behind a truck?
- A. Right.
- Q. Did you see anything else? Did you hear anything else, []
- A. No I really didn't. I didn't look because I didn't want the guy who was shooting to see us. I didn't want to look.
- Q. What did you do then [] A. Then we kind of went between the cars. There were like cars driving all around. We went through the cars and ran to another restaurant and ran inside.
- Q. Was the restaurant on the same side as the No Name? A. Yes it is. It is on the same side as the No Name, Pier 4 or something like that.
- Q. It is near Pier 4? A. I think that is the name of the restaurant.
- Q. Is that the one which is set way down back? A. Right. It is off the street.
- Q. I assume that would be Anthony's Pier r? A. That's it.
- Q. Did you do anything else then [] A. I went to the bathroom.
- Q. That is understandable? Did you wait then until the police arrived?
- A. Yes we did. We waited outside.
- Q. Now this man who was operating the second car, [] would you know him if you saw him again? A. I don't think so. I looked but I didn't get a very clear picture of what he looked like,

b6
b7C

b6
b7C

A. I just kind of got a vague picture. I don't know if I would recognize him. Some other people had that same vague outline.

Q. But you say you heard a few shots; then a pause? Then you heard a few more shots? Is that right? A. Right.

Q. Were these one after another or were they like rapid fire? A. It wasn't like machine guns, but it was rapid. It wasn't like he had to crank the gun and shoot again. It wasn't like hunting.

Q. It was like automatic? You pull the trigger and boom, boom, boom?

A. Yea like that. But there were a lot. Not two or three, maybe like five. Don't quote my exact words. There were a few, a stop and then there were a few more. The second lot was more.

Q. When you heard the first shots and you looked over, did you see the man in the second car? Did you see him doing anything? A. No. I actually didn't see him shoot. I was looking at the man slumped over the wheel.

b6
b7c

Q. When you heard shots the second time did you have occasion to look over that way? A. No.

Q. Were you behind the truck at this time? A. Right

Q. And you say the man whom you describe as, what you think, is a white male? Right? A. Right.

Q. Black or dark complexion? Bushy hair? A. No. I didn't say that.

Q. All right? I am sorry? A. He looked young like in his mid 30's. I didn't think he had black skin. I think he was light. I would say Caucasian, but I wouldn't rule out that he might be foreign born. I think he had dark hair, kind of medium color I guess, kind of close to his head. It wasn't long and it wasn't extremely short.

Q. Do you know? I don't know if I asked you earlier? You saw that car traveling in the same direction as the first car? Did you see it make a U turn? A. No I didn't.

Q. So you don't know which way or which direction the car went? A. No I don't.

Q. Except that it was going in the same direction as the first car?

A. It was stationary when I saw it. I didn't see it moving.

End of interview at approximately 8:30 P.M.

At just about [redacted] The Galley, which is the bar in the facility and which was the only part of The Pier open that day. However, it does not open until 4:00 P.M. To the best of [redacted] recollection the first customer in The Galley that day was [redacted] a deliveryman who made a delivery around back and then came into The Galley, where [redacted] the bar. The only [redacted]

[redacted] and the [redacted] came in just about 4:00 P.M. Brian Halloran and a companion who [redacted] had never seen before, came in a few minutes later, perhaps around 4:05 P.M., and they were followed within a minute or two by an obviously drunk [redacted] who had been a customer there on several occasions in the past. The drunk [redacted] went around trying to sell his watch for cab fare and in fact approached Halloran, but [redacted] told the drunk to leave Halloran alone. [redacted] called a cab for the drunk around 5:15 - 5:30 P.M. and he departed around that time. The only other customer was a business man type who came in shortly after 4:00 P.M. and sat the entire time near the waitress station with his back to the front windows of The Galley.

b6

[redacted] left The Pier around 4:10 P.M. or 4:15 P.M. to go to [redacted] There was no one else in The Galley that afternoon, with the exception of an unknown and unidentified individual who came in only to use the rest room and then departed. The rest room is located down a hall opposite the front entrance of The Pier and one does not actually come into The Galley to use it. This individual came in to use the rest room around 4:30 P.M. or 4:45 P.M. [redacted] heard the front door of The Pier open and he glanced in that direction only to glimpse a figure go by. He couldn't tell if the person was male or female, and the person said nothing.

Brian Halloran and his companion, later identified in the papers and on television as Michael Donahue, sat at the counter by the front window in the corner closest to the front steps of The Pier the entire time they were in The Galley. [redacted] both screw-drivers, Halloran three and Donahue two, since Donahue initially declined to have a drink and only ordered one after tasting Brian's. Initially, Donahue had said he did not drink.

b6
b7C

[redacted] using the telephone to call a cab for the drunk [redacted] the only persons to use the telephone were Brian and [redacted] Brian used the telephone to make two calls and then received a telephone call around 5:00 P.M. [redacted] used the telephone around 5:20 P.M. or 5:30 P.M. [redacted] did not observe anyone outside The Pier, the entire area being unusually quiet that day because the Port Cafe was closed.

Around 6:00 P.M., Brian and Michael Donahue left without saying anything, Brian leaving his drink 1/2 full and Donahue leaving his 3/4 full. [redacted] and the other customer were still at the bar and [redacted] over in the far corner of The Galley at the front window.

Within a minute or two of Halloran and Donahue leaving, [redacted] heard several - perhaps 4 or 5 shots in rapid succession; they sounded like "pops." [redacted] something about "they shot him" or something like that. [redacted] the bar and stepped around [redacted] who appeared to be scrambling to get behind the bar. [redacted] went over [redacted] the front windows and [redacted] at the bar. He then went to the pay phones located just inside the front entrance to call the police on the "911" emergency number. As [redacted] was making the call, [redacted] toward the door but [redacted] to the front window in the corner near the front steps (in the area Halloran and Donahue had been sitting earlier). While this was happening and still while in the process of calling "911", [redacted] heard a second series of shots, more than a dozen, mostly "pops" like the first series, but also a few "bangs" in the middle, as if two guns were being fired. During at least part of this second series of shots, [redacted] where Brian had previously been seated, probably [redacted] after the shooting had started again.

[redacted] something like "My God, they're coming back, they're shooting again. He's walking, he's alright, he fell." [redacted] is fairly certain that the sequence of [redacted] utterances is accurate. [redacted] got the impression [redacted] that Brian had been trying to walk back toward The Pier when he was shot again.

b6

[redacted] completed his "911" call to the Boston Police and then went to the window in the Portside Lounge, which is on the other side of the entrance to The Pier (opposite The Galley) and more directly across from the Port Cafe than The Galley is. He observed Brian Halloran lying in the street on Northern Avenue about 10 feet from the back quarter panel on the driver's side of a blue Datsun which was stopped at an angle in front of the Port Cafe. No one came to Brian, and then eventually a man in a tan windbreaker, long dark hair parted on the side, dark beard, came over to Brian from the direction of Commonwealth Pier.

[redacted] did not observe any of the shooting or the car involved in the shooting.

[redacted] date of birth is [redacted] place of birth Boston, Massachusetts. His Social Security Number is [redacted]

[redacted] during a previous interview with the FBI on May 13, 1982 in which interview [redacted] denied Halloran had been at The Pier on May 11, 1982 and did not say anything about [redacted] the shooting. [redacted] stated that during the earlier interview he was scared to death and was fearful of retribution for the murders if he said anything to police.

About the time [redacted] was [redacted] was leaving [redacted] a ride to [redacted] in Boston. [redacted] returned to the Galley just about the time [redacted] was [redacted]

[redacted] Halloran received a telephone call [redacted] on one of the two pay phones located just inside the front door of The Pier. He was on the phone about 10 minutes, perhaps between 4:30 P.M. and 4:40 P.M.

Halloran and Donahue were drinking screwdrivers, Halloran having about four and Donahue perhaps three. Halloran said something about he and Donahue having to stay around until 6:00 P.M. to meet a guy. [redacted] one of the customers making a telephone call about 20-25 minutes prior to the departure of Halloran and Donahue and telling the person he was calling that he was through for the day and could now relax and have another beer.

[redacted] Halloran and Donahue leaving The Pier around 6:00 P.M. [redacted] to a small compact car and Donahue got in behind the steering wheel and Halloran into the front passenger seat. Around 5:00 P.M., May 11, 1982, he made a service delivery [redacted] at the side door of The Pier, Northern Avenue, South Boston. He observed no persons seated in parked cars in the area, and nothing out of the ordinary. Around 5:10 - 5:20 P.M., he went through the unopened Portside Lounge at The Pier and into The Galley, a bar located on the west side of the building with large plate glass windows facing Northern Avenue.

The only people in The Galley were [redacted] [redacted] can't recall, some guy who worked in the [redacted] business, and Brian Halloran and an unknown man with Brian. The guy in the [redacted] business lived in [redacted] and is about [redacted] years old, based on [redacted] observations and conversation while at the bar. [redacted] did not know Brian Halloran and did not know it was Halloran in the bar until after the subsequent shooting. He knew the name Brian Halloran by reputation since [redacted] grew up in the [redacted] area and associates with a lot of people from that area who knew Halloran or who knew his reputation.

In The Galley, [redacted] Halloran, who [redacted] did not know to be Halloran at the time, and Halloran's companion were seated over by the front window having some type of orange juice drink. A few minutes after they left, while [redacted] were seated at the bar away from the front window, [redacted] heard a series of numerous gunshots (they sounded like "pops"), a 20-30 second pause, and then another series of "pops" or gunshots. called out something like "Oh, it's Brian" [redacted] b6
[redacted] had gone toward the window after the first b7C
series of shots, but when [redacted]
[redacted] he realized what was
happening, and told [redacted] retreated over behind
the bar.

[redacted] is unsure about the sequence of events, but he believes that it was after the second series of shots when all the shooting was completed, that he returned toward the front window and that it was then that he observed a fading dark blue 1974-1975 Chevelle or possibly Nova pass from right to left directly beneath the front window of The Galley. The driver was just a figure in the car and [redacted] cannot describe him. There was a passenger on the rear seat on his knees holding a long barrel weapon. He appeared to be a white male, perhaps mid 20's to late 20's, average build, not a large man. Leavitt cannot describe him further. The observation of the car could have been when he went to the window after the first series of shots and before he had backed away, but he thought all the shooting was done when he saw the car. b6 b7C

[redacted] saw Halloran lying face down on the street outside the bar across the street, facing in the direction of The Pier. The shooting, he believes, was completed at this point, but he is not certain. There were a total of perhaps 15 shots, with the first series of shots being more numerous. All the shots sounded the same to [redacted] as though only one weapon was used.

[redacted] heard no conversation between Halloran and his companion while they were at The Galley. [redacted] and they were over by the front window. Neither Halloran nor his companion appeared edgy; they appeared "laid back", i.e. relaxed. He recalls no one else being in The Galley that day, except there was someone who came into The Pier only to use the restroom and then leave. b6 b7C
This was sometime between [redacted] and the departure of Halloran and his companion. [redacted] view of the front entrance was partially blocked and so he only heard someone come in and go to the restroom down the hall; he did not see the person.

The car was parked on the right (north) side of Northern Avenue several feet east of the Commonwealth Pier overhang or bridge.

Massachusetts, telephone number [redacted] furnished the following information:

In 1974 [redacted] purchased a metallic blue or light blue [redacted] 4 door sedan with a dark bluer interior from the Chevrolet Zone Office, Westwood, Massachusetts, for approximately \$3,000.00. The car had air conditioning, AM-FM radio, tinted rear window, power windows and a tilt steering wheel. Leober is employed by General Motors in Framingham, thereby enabling him to purchase the vehicle with low mileage and in essentially new condition.

In May 1980, [redacted] placed an ad in the "Want Advertiser", a Boston area booklet that is published weekly containing want ads exclusively, offering the vehicle for sale. As best as [redacted] can recall, the ad merely described the car as a [redacted] in excellent condition being offered for \$2,000.00. The ad also listed some of the vehicle's special features.

When [redacted] put the car up for sale, it was in "mint" condition, with no body damage or rust. The car had about 58,000 or 59,000 miles on it. The rear side of the [redacted] emblem on the hood was missing, but other than that everything was on the car that was supposed to be, including all the hub caps or wheel covers. The vehicle had heavy duty suspension and wide ply Goodyear radial tires, the type used on Corvettes. The odometer was working.

About three weeks after the ad was first placed, [redacted] received a telephone call one night, believed to have been possibly a Wednesday night, inquiring about the car. The caller, who [redacted] said sounded like an older man, said that the car sounded like what his son was looking for and he wanted the boy to come out and look at the car the day after the next day, which as best as [redacted] can recall would have been a Friday. [redacted] worked nights, so [redacted] told the man that his son would have to come before 4:00 P.M. The man called the morning of the day his son was scheduled to look at the car and spoke to [redacted] telling her that his son was at work and that he (his son) would be out to see

the car on his lunch hour. He did not mention where his son worked. Later, [] himself received a call from the son, who said that he would not be able to make it at lunch-time, but that he would be out later, during mid-afternoon prior to [] going to work. The boy apparently indicated that he was coming from the Dorchester area because [] gave him directions to his house starting at Forest Hills and down Washington Street to Grove Street.

b6

The son arrived in the mid-afternoon. He came carrying an old beat up Massachusetts license plate which [] actually put on the [] for him later, but [] cannot recall the numbers and/or letters on the plate. [] recollection is that the plate possibly was a repair plate, but he is not certain. During the interview, [] mentioned the possibility of it having been a repair plate, then said that he didn't think it was, and then later returned to the possibility of it having been a repair tag.

The boy as best as [] can recall identified himself orally as [] but did not offer proof of his identity nor was any requested by [] recalls [] as a white male, age in his early twenties, possibly [] tall, very slender or skinny build, [] curly hair which was long (but not over the shoulder) and messy, light clear complexion, average voice. [] is 99% certain [] had a mustache. [] was dressed like a worker with old clothes, possibly a pair of jeans, b6 and it was [] impression that he worked in a garage or body b7C shop. [] may have indicated this, but [] did not feel at all good about this and it may have only been [] impression rather than anything [] said. If [] were to guess at [] ethnic origins, he would guess Irish-English in view of his hair and complexion, rather than Italian or Jewish or some other ethnic group. [] was exceptionally nervous, almost hyper, and was in a great hurry.

[] was on foot when he arrived, having apparently been dropped off by someone. [] was not aware of anyone being with him nearby or in another car. [] just appeared with the license plate in hand and was apparently planning to purchase the car no matter what, because he did not appear to have anyone waiting for him.

3,

[] first observed [] was looking at the [] on the street and walking toward [] porch. [] promptly began explaining some of the positive features of the car to [] who seemed especially impressed with the tilt steering wheel. Then, almost "out of the blue" so to speak, [] said he would buy the car, that he was in a hurry and had to get back to work. He said that he was buying the car for his father, which [] thought was curious since the original caller indicated to [] that the car was for his son. [] encouraged [] to take the car for a ride, but [] was nervous and quite impatient and said that he didn't want to take the car for a test drive. [] did not try to negotiate a lower price, only appearing impressed by the fact that the car had tilt steering, air conditioning, reasonably low mileage and a V-8 engine. [] on his own started the engine for [] but [] wasn't interested and still did not test drive it.

b6
b7C

[] produced a roll of \$2,000.00 in twenty dollar bills; there may have been a few tens, but it was for the most part all or mostly twenties. [] gave [] the Massachusetts title certificate, executing the reverse side, and had [] execute a piece of paper for [] indicating that [] had purchased the car from [] retained this document, sort of a reverse bill of sale, for quite some time, but recently [] threw it away when they heard no more about the car and they figured that the deal was really legitimate and there was no need to retain it any longer.

b6
b7C

Initially, [] thought during the course of this interview that he had executed a bill of sale for [] but when the interviewing Agent displayed to him a copy of the Massachusetts certificate of title for the vehicle, [] then recalled that he gave [] no bill of sale as such, but rather executed the back side of the title certificate for him, and gave that document to []

[] believes [] was at [] house only about 15 minutes at a maximum. [] is doubtful that he could identify [] but said that if he were to actually see [] in person, or see a real good photograph, his memory might be refreshed and perhaps he could identify him. He merely has no present clear image of [] face.

In May, 1980, [redacted] placed an ad in the "Want Advertiser", a Boston area weekly booklet containing want ads exclusively, offering the car for sale for \$2,000.00.

Some two or three weeks after the ad was placed, she received a telephone call, probably in late May, 1980, from a man inquiring about the car. She recalls the caller asking about what features the car had and saying that it sounded like the type of car his son was looking for. As best as she can recall, the call was received on a Wednesday evening and the caller wanted his son to come out from Dorchester and look at the car on Friday morning. She told him he would have to come before 4:00 P.M. because after that [redacted] would be at work. Friday the man called back and said that his son was at work and that he would come out to see the car on his lunch hour. He did not say where his son worked.

It was [redacted] impression that the caller was a white male, about 60 years old, with an average sounding voice, not especially deep or high pitched. His grammar was good, but he did not speak in a very business-like manner, but rather in a more casual outgoing and talkative manner. To her, he sounded like a Boston-Dorchester area bookie, sort of fast-talking and flashy in his style of speech, but she is at a loss to explain the reason for her impressions or to further describe them. He merely impressed her as a "wheeler-dealer" type. She did not note any ethnic distinction or characteristics in his voice. He sounded a little "flaky" to her, almost as if he had had a few drinks, but again she could not explain her impressions.

[redacted] that Michael had been with Brian Halloran that day. Somebody (Michael never said who) had told Michael to stay away from Brian because Brian was in trouble. During a search of the records of John B. Callahan (deceased) at the law office of Attorney [redacted] [redacted] Boston, which search was conducted under the oral authorization of [redacted] through his associate, Attorney [redacted] [redacted] a memo dated August 16, 1976 from [redacted] to [redacted] [redacted] and [redacted] regarding World Jai Alai was observed. John Callahan's name was handwritten across the top of the memo. b6 b7C

The memo dealt with a proposal by Callahan to acquire World Jai-Alia with the assistance of [redacted] (who presumably represents some financial lender/investor). In the memo, [redacted] states that Callahan resigned as President and Chief Executive Officer of World Jai-Alai in order to formulate a way to acquire the business, and that Callahan had obtained a financing commitment from the Central States Pension Fund for an outright purchase, which the Board of World Jai-Alai declined.

The memo identifies Paul Rico as a partner of Callahan in the deal.

A copy of the memo is affixed hereto.

Re: World Jai-Alai

The Deal

John Callahan has come to us with a proposal to help him acquire the business of World Jai-Alai. As will be explained later, his structure contemplates buying all assets except the fixed assets which will be leased for 25 years with seven 10-year extensions. Consequently, he needs only \$10-12 million for the acquisition and working capital and is asking us to either:

- a) Lend \$5-6 million for 5 years, equal payments in years 3, 4 and 5, pari passu with First National Bank of Boston revolver; or
- b) Invest \$2-3 million in subordinated loan on top of which First National Bank of Boston would lend \$9-10 million.

In either case, Callahan offers us 25% equity in the new company to be formed to purchase the business and lease the assets of World. The lender may also turn out to be First of Boston and some or all of its present group including National Shawmut, First of Miami and Connecticut Bank and Trust who collectively provide a \$17 million line at present.

History

In case you don't remember, Jai-Alai is a Basque game which has been played in Florida since 1924 when Ben Trustman brought it to the U.S. from Cuba and obtained a pari-mutuel license from the state. At present, other states and Montreal are considering the introduction of the sport as a pari-mutuel activity and Connecticut has already done so. World's fronton (stadium) in Hartford which only opened in May is outstripping the Miami fronton which had always had the largest revenues.

World is 97% privately held, controlled by the [REDACTED] family, and 3% publicly held. [REDACTED] and Callahan have agreed in principle that by leasing the facilities it owns in Florida and Connecticut for a minimum rental

b6
b7C

representing \$1.50 per share for World shareholders (\$5.4 million) and with an additional percentage lease, World could then be converted to a Real Estate Investment Trust, passing out to shareholders about \$2.25 per share on an on-going basis compared to the 30 cent dividend they can now expect and avoiding major capital gains tax problems to the [redacted] family that would be involved in a sale of the whole company.

b6
b7c

Callahan was President and CEO of World from December 1974 to March 1976 when he replaced himself with [redacted] (who will stay on) and resigned to formulate a way to acquire the business. He has obtained a financing commitment from the Central States Pension Fund for an outright purchase for \$35 million and has submitted a written offer in that amount to World which the Board declined. There is talk of an unrelated group (in which [redacted] has some role) making a cash offer of \$54 million; if so, it will be taken up and Callahan will not try to compete. On the other hand, [redacted] is very partial to the REIT form, taking \$10 million front-end payment for the concessions, player contracts and an agreement not to compete. then a monthly rent based on net pari-mutuel income to the Callahan group.

Attached is a memorandum from [redacted] which goes into the structure in more detail.

The economics of the game are these: the gross amount of money taken in bets "the handle" is split three ways: 83% is paid out in winnings, 5% is paid to the State and 12% is referred to as net pari-mutuel revenue. Added to net pari-mutuel revenue are admissions and concession income, collectively referred to below as non-pari-mutuel income.

The attached summary of earnings shows actual results from 1971 to June 30, 1976 and project forward through 1981 on the assumption that Callahan has borrowed \$12 million on which he is paying 10% interest and is paying the agreed minimum rent of \$5.4 million to the REIT plus the additional rent to be calculated as 1/3 of the amount by which net pari-mutuel revenues in future years exceed net pari-mutuel revenue for the year ended June 30, 1976, or \$15.2 million.

We can also assume that the \$10 million cash payment will be allocated against assets (such as player contracts and non-compete agreement) so that we will be assured of amortizing that cost over no more than three years for tax purposes. This is crucial because it generates the cash flow necessary to finance the purchase.

The Future

It is simply a matter of time before other states such as New Jersey and New York authorize Jai-Alai. Serious negotiations are presently underway with Montreal which would involve Montreal building a fronton at the olympic site and retaining World to supply the game. Without trying to quantify the impact of a potential fronton in New Jersey or New York which would be a bonanza, it appears that Montreal alone could contribute \$5 million pre-tax per year from an investment of no more than \$1 million. Callahan estimates a 40 percent chance of having Montreal in operation within two years and a 20 percent chance of operating in New Jersey within three years.

More probable and imminent are two scheduling changes:

- 1) Hartford changing from present 193 days and 224 performances to a full year of say 310 days and 460 plus performances. This would create another \$5 million of pre-tax income. The projections reflect an increase in the handle from \$126 million in 1976 to \$200 million in 1977. Hartford was only included in 1976 for 42 performances. Handle per performance has set records in Hartford and has just exceeded \$500,000.
- 2) Miami being licensed to operate a summer season. At present, Miami and Tampa operate from December 16 to April 26. Ocala and Fort Pierce which are much smaller frontons increasingly used for the training of up and coming professionals play from May 26 to Labor Day (first Monday in September). There is a high likelihood that a license will be issued to run Miami in the summer as well which should increase pre-tax income by \$2 million.

None of the above possibilities has been taken into account in the projections.

The Player Pool

The dominating position of World in U.S. Jai-Alai is a direct result of the fact that they have some 225 of the world's 275 professional players under contract. Callahan's major concern and the element to which he devotes the major part of his time is player relations, negotiations and development of new players. World controls, and Callahan will buy outright, player schools in Guernica and in the south of France. Callahan is ideally suited for this role as he is tough, smart and personable--someone to whom the players can readily relate. Callahan will continue this

activity. It may be worth stressing that all operating management will stay under the new setup so we need not fear breaking-in pains.

Summary of Considerations

POSITIVE -

- 1) A well-established, great cash flow business with a proven record of success.
- 2) Callahan, a proven manager well known to us who now knows the business better than anyone else.
- 3) Leverage provided by First National Bank of Boston who currently provides a line of \$17 million to World.
- 4) Tremendous profit potential.

NEGATIVE -

Image:

- 1) The image problem of being involved in a pari-mutuel business. We're already doing it in Gibraltar and it is certainly a cut above casinos but it is gambling nonetheless. In this connection, Callahan has taken great care to hire ex-FBI men at each of the frontons and Mr. Paul Rico, ex-FBI, Director of Security, known as a strong anti-crime figure, is a partner of Callahan's in this deal.

Equity:

- 2) The lack of equity if we consider this from the banking side, the only assets we have to support our loan are the franchises, the player contracts, and the leasehold from World--all perhaps of questionable value if the business is at a point where we have to worry about our security (see Pro Forma Balance Sheet). On the other hand, the States involved will do everything they can, including paying for the leasehold in eminent domain to keep the golden goose laying. Callahan estimates the leasehold to be worth \$20 million.

Taxes:

- 3) Pari-mutuel operations are at the mercy of the States who may get too greedy and choke the proverbial goose mentioned above. At present the States take 5% of the handle and the projections include an increase up to 6%.

Players:

- 4) There is a limited supply of players which happen now to be largely under the control of World. Player organization might improve so that salaries shoot up; however, they are presently very highly compensated and their total compensation comes to less than 2% of handle. In the extremely unlikely case that average wages were increased by 50%, the overall impact would be less than \$1 million. A more serious concern is that many of the players might be prohibited from leaving Spain due to political tension. This potential problem is growing less serious as more and more players marry American girls and become U.S. residents and, as more players are developed in World's schools and training leagues in France and the U.S.

Conclusion

On balance, I think this is a unique opportunity to come in to an already very profitable situation which is about to take off over the next few years. We should either massage it as a cash flow loan to fit I.B.I.D.'s book or take a straight subordinated portion from Zurich a la I.M.S. Callahan will, of course, be willing to come to London to give you a more detailed analysis than that which I have attempted in this memorandum.

- a) The large increase in over-all revenue reflects the impact of the Hartford fronton which opened in May of 1976 and consequently only contributed marginally to 1976 results. The projections assume that Hartford will only operate its present schedule of 193 days and 224 performances although it is a probability that Hartford will be licensed for the full year in 1977 which could increase net pre-tax income by \$5 million.
- b) For the sake of projections, 1978 revenues ^{projected} ~~consequently~~ stated to be flat although cost increases of 7% are contemplated for every year going forward.
- c) The new company will not own its plant thus there is no new depreciation to compare historically with World. It now will pay base rent of \$5.4 million per annum plus 1/3 of increased net pari-mutuel revenue.
- d) It is assumed that \$12 million will be borrowed at 10% per annum, amortized at the rate of \$4 million per annum.
- e) For the sake of conservatism, it has arbitrarily been assumed that the State's share of the handle will be increased from 5 to 6%, adding 1/2% in 1979 and another 1/2% in 1980.
- f) Deferred taxes which may increase cash flow have not been reflected either in the actual or projected figures.

[redacted] residence, [redacted] Street, New York, New York, was contacted at his home. [redacted] was advised of agents official identity and the purpose of the contact. [redacted] agreed to make the following comments:

[redacted] advised that he was expecting contact from the Federal Bureau of Investigation (FBI) regarding his friend, JOHN B. CALLAHAN and some of CALLAHAN's reputed associates and business dealings.

[redacted] noted that he met CALLAHAN [redacted]

[redacted] described [redacted]

[redacted] advised that, at the time, CALLAHAN was involved with Arthur Anderson Audit and was working with Anderson's [redacted] of Newton, Massachusetts. Within a short time, CALLAHAN became chief operations officer and president of S.W. Industries, which was controlled by one, [redacted] out of Rhode Island. [redacted] advised that CALLAHAN, after a couple of years, went to [redacted] with the idea of buying out S.W. Industries and looking for backing from [redacted] stated that [redacted] put CALLAHAN in touch with him at this time. [redacted] noted that this idea never reached fruition and, as a consequence, CALLAHAN left S.W. Industries. However, [redacted] advised that [redacted] recognized CALLAHAN as a very fine resource, due to his accounting and operating experience. [redacted] advised that [redacted]

[redacted] to create J.B. Callahan and Associates. [redacted] stated that one of CALLAHAN's chief clients was the First National Bank of Boston in a consultant capacity regarding bad loans. [redacted] advised that CALLAHAN had an enormous talent for sorting out such issues.

Regarding the World Jai-Alai (WJA) proposal, [redacted] advised that it was a bonafied endeavor. [redacted] was exhibited a copy of [redacted] regarding that subject and offered the following:

Interviewed on 11/18/82 at New York, New York File # NY 183B-2511

By SA [redacted] mc

Date Dictated 11/24/82

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

[redacted] recognized the above stated memo as his and that the addressees of that document are officials of the Hambros London Bank. [redacted] advised that CALLAHAN was brought into WJA by [redacted] of WJA, of the family who introduced Jai-Alai to the states in 1924. Other directors were listed as [redacted] (Name Unknown); CALLAHAN; and [redacted] (representing [redacted] interest). Further [redacted] recalled that a gentleman by the name of [redacted] former officer of the First National Bank of Boston, also may have been a director for World Jai-Alai. [redacted] advised that the company was going public and that the [redacted] wished to retain some sort of interest. As a result, [redacted] noted [redacted] and CALLAHAN sat down with [redacted] to discuss the possibility of CALLAHAN buying out certain aspects of that company. [redacted] noted that CALLAHAN would make an offer for everything but the actual real estate so that a real estate investment trust could be created with no tax at the company level and a higher return purchase to investors. [redacted] advised that in order to accomplish this or make the offer it would necessitate CALLAHAN's resignation from WJA as its chief executive officer and president. [redacted] stated that this was accomplished and a CALLAHAN [redacted] [redacted] assumed those duties. [redacted] agreed that the memo correctly represents the CALLAHAN [redacted] which was at approximately \$35 million.

b6
b7C

[redacted] recalled that the Bali Company (phonetic), owners of casinos in Nevada and Atlantic City, made an offer of 54 million, to include the real estate as well. [redacted] advised that the WJA board accepted that offer over CALLAHAN's, which negated any further involvement by [redacted] London investors. [redacted] advised that he was aware of CALLAHAN's claim that he had a commitment from the Central States Pension Fund, but that he knew of no names nor was privy to documents describing that arrangement. [redacted] advised that had the proposal gone beyond the proposal stage it would have required that he secure those documents and detailed information regarding that commitment from CALLAHAN. [redacted] noted that he would have preferred more detailed knowledge regarding that commitment, but felt that CALLAHAN would provide that upon request. However, when CALLAHAN's proposal was not accepted [redacted] never heard any

b6
b7C

further details from him regarding the Central States Pension Fund commitment. Again, [] stated he was never able to confirm CALLAHAN's claim of that commitment.

Regarding PAUL RICO, [] admitted he knew very little. [] advised that he spoke to RICO once or twice on the telephone regarding his involvement in heading up the security at WJA. [] reiterated the notion that RICO's former FBI employment was designed to lend credibility to an, otherwise, quasi-gambling endeavor. [] stated he never met RICO nor had any conversations or further news of RICO beyond what he described back in 1976.

b6
b7C

[] stated that when he learned of CALLAHAN's murder, he was [] stated that he felt it had something to do with CALLAHAN's testifying at a Tulsa inquest regarding the murder of ROGER WHEELER. [] advised that prior to [] contacted CALLAHAN to compare calendars so they could reach one another if necessary. [] advised he was surprised CALLAHAN was found in Miami, as CALLAHAN's only connection with Florida was his Fort Lauderdale apartment.

[] indicated that although he considered CALLAHAN a good friend, CALLAHAN had the capacity for compartmentalizing his life, friends, and businesses. [] affirmed [] and CALLAHAN had mutual interest in a [] company, [] of which CALLAHAN was president and chief executive officer. [] stated that he had never heard of BRIAN HALLORAN or ROGER WHEELER but has since discovered that HALLORAN was a boyhood friend of CALLAHAN's from Boston.

b6
b7C

[] advised that he knew CALLAHAN met with a [] who ran greyhounds, regarding the acquisition of a track either in Massachusetts or Florida. [] stated he had a feeling that CALLAHAN was running in a rough crowd, but that [] was more of a business associate-type friend and felt his interference inappropriate.

[] assured his continued cooperation in this matter.

[redacted] age [redacted] residence at [redacted] Massachusetts, telephone number [redacted] was contacted at her residence by SA [redacted] and Officer [redacted] of the Metro Dade Police Department, Miami, Florida, and [redacted] furnished the following information:

She has been employed as a part-time secretary by John B. Callahan at Suite 401, 10 Commercial Wharf South, Boston, Massachusetts, since [redacted]. She works about 22-25 hours each week, usually Mondays, Wednesdays and Fridays from 9:00 A.M. or 10:00 A.M. to about 4:00 P.M., and is paid about \$12,000 per year. She functions as a "girl-Friday," paying bills and credit card accounts.

b6
b7C

Callahan's primary business is that of a business consultant at John B. Callahan and Associates, but he also owned SED Leasing (a computer leasing company) and had an interest in Heywood-Wakefield, as well as some interest (possibly as a consultant) in Cambridge Memories. [redacted] considered Callahan evasive about his business activities and interests, and he didn't confide in her or share his thoughts with her about his business matters. She pretty much handled routine office secretarial functions, doing routine paperwork and typing, paying bills, etc. Callahan was not a person to write many letters in connection with his business interests, and as a result, she took very little dictation from Callahan.

[redacted] last saw Callahan last Friday, July 30, 1982, at about 3:00 P.M. or 3:15 P.M. when she left work at the office in Boston. A business associate and friend named [redacted] from Europe was in town. Callahan's Jaguar had a flat tire from the previous night and was being repaired, and Callahan borrowed [redacted] car for an 11:00 A.M. meeting in Braintree, Massachusetts. [redacted] accompanied him and went shopping. She returned with him around 2:00 P.M., dropping him off at the North End Body, before she returned to the office, where [redacted] was. [redacted] left for [redacted] around 2:45 P.M. with [redacted]. Meanwhile Callahan had returned to the office and was there when [redacted] left work for the day.

Callahan had told [] that he was going to Florida for the weekend, that he had a couple of meetings there and would return by Monday. She had made no reservations for him with any airline, so she doesn't know which airline he flew with, but he usually used Delta or Eastern when he went to Florida, and he generally flew into Ft. Lauderdale where he had a condominium. He had recently spoken of considering flying Air Florida because of the better rates. He generally kept his leased car at the Ft. Lauderdale Airport when he was not in Florida.

John T. Hurley, 320 Medford Street, Malden, Massachusetts, telephone number: 322-6470, was contacted at his residence, where he was advised that the interviewing Agents wanted to talk with him regarding murder victims John Callahan and Brian Halloran. Hurley advised as follows:

Hurley knows nothing about the murders of either Halloran or Callahan.

Hurley knew Callahan not as a business associate but as a friend, a drinking partner who enjoyed Irish music. He last saw Callahan on Friday night, July 30, 1982, two days before Callahan supposedly was murdered, assuming that he was murdered on the Sunday. That Friday he first ran into Callahan at the bar upstairs at The Landmark, where Hurley had a couple of glasses of wine with Callahan. Callahan was alone. Hurley initially said that he (Hurley) was with someone, whom he declined to identify, and then said that, in fact, he (Hurley) was alone. Later that night, Hurley was at The Pier on Northern Avenue with a couple and two women when Callahan came in alone around 1:00 A.M. Callahan bought a round of drinks and Hurley ended up having a couple of screwdrivers with Callahan. Callahan was there until closing at 2:00 A.M., Saturday, July 31, 1982. Callahan was alone at The Pier. Hurley declined to identify the people that he was with.

Callahan was in a good mood. He said nothing about his weekend plans except that he was going away for a few days. He did not tell Hurley where he was going or why.

When asked if Hurley had telephoned Callahan that Friday night, Hurley replied in the negative. Later, after Hurley had explained the circumstances of his meetings with Callahan that night, Hurley was asked why he had called Callahan that night, and Hurley responded that he had already told the interviewing Agents that he had not called Callahan and that he had met Callahan on two occasions that night.

When Hurley was confronted with the fact that Callahan's answering service records show two calls from Hurley that night, one at about 6:00 PM and the other at about 9:00 PM, and was then asked to explain why he was attempting to contact Callahan, Hurley explained that he could have called Callahan. He said that if one call was around 6:00 PM, he would have just gotten off from work and could have been calling to see if Callahan wanted to have a drink somewhere and listen to some Irish music. He said the 9:00 PM call could have been from the Black Rose in Quincy Market if he had not seen Callahan there and was trying to locate him to join Hurley for a drink. Hurley said that his meeting of Callahan at The Landmark would have been after 9:00 PM.

Hurley never traveled with Callahan and does not know who he was close to.

Hurley was friendly with Brian Halloran in the past, but for the past year or so had not got along with him. Halloran was a "coke head" and carried a .357 Magnum or a .38 caliber revolver and therefore was dangerous. Because of this, Hurley had no use for Halloran and had "a beef" with him in public about it a year or so ago. He last saw Halloran with [redacted] at some "gin mill" last winter.

Hurley was asked as to his own whereabouts on the day of Halloran's murder. He responded that he knew where he (Hurley) was, but he declined to say where he was or who he was with.

The trip that resulted in Callahan's murder would have been the first trip to Ft. Callahan had kept his car at the Fort Lauderdale Airport when he was not in Fort Lauderdale, but he had been concerned about damage to the vehicle in the parking lot where it was exposed both to the weather and the public. Within the last few months, Callahan had found a place near the Fort Lauderdale Airport where he could park his car when he was away from Fort Lauderdale. On November 23, 1982, the Massachusetts State Police (MSP) and the Norwood, Massachusetts Police Department arrested Alvin Roy Campbell in a raid at a Norwood apartment occupied by Campbell. Seized during the raid pursuant to a search warrant were the following items:

One (1) AR-15 .223 caliber semi-automatic rifle;

One (1) .22 caliber Winchester rifle, Model 190, with scope;

One (1) M-1 Plainfield .30 caliber carbine with scope and silencer;

One (1) P-38 9 mm. semi-automatic pistol with silencer, stolen March 17, 1982 at Norwood, Massachusetts;

One (1) Smith and Wesson 9 mm. semi-automatic pistol, Model 39-2, with silencer, stolen at New Bedford, Massachusetts.

Two (2) 7" silencers and one (1) 15" silencer.

All seized weapons were fully loaded with one round chambered. Also seized were news articles of various gangland murders, including the murder of John B. Callahan.

Campbell is a violent career criminal who has served time in the Federal penitentiary for bank robbery (approximately February, 1959 - December, 1966) and Federal drug/cocaine charges (June, 1970 - September 14, 1977). His arrests, in addition to bank robbery and drugs, include larceny, assault and battery with dangerous weapon, receiving stolen property, breaking and entering, interstate transportation of stolen property, assault on Federal officer (prison guard), and murder. Campbell reportedly was a close associate of certain powerful figures in the Winter Hill Organization, particularly Johnny Martorano, and his particular value in view of his close relationship to Martorano who had control of the gambling, drugs and loansharking in the black communities of Boston's South End and Roxbury sections, would have been the control and respect Campbell had in the black communities.
